LEGAL NOTICES.

SAORSTAT EIREANN.
NOTICE.
TO COMMISSIONERS CHARITABLE DONATIONS AND BEQUESTS
In the Goods of

GEORGINA GLENNON, formerly of 26 Gardiner's place, Dublin, and 17 Whitworth road, Drumcondra, and late of 318 North Circular road, Dublin, Spinster.

NOTICE is hereby given, in pursuance of the provisions of the Act of Parliament 30 and 31 Vict., C. 54, intituled "An Act to amend the Law of Charitable Donations and Bequests in Ireland," that the said Georgina Glennon, by her Will dated the 13th February, 1907 and Codicil dated 21st December, 1920, bequeathed and devised to the Superior of the Franciscan Order in the Church known as Adam and Eve's, Merchant's quay, or to his successor in that position, at the time of her death, the sum of £100 for Masses to be said in Ireland for the repose of her soul, and FURTHER gave, devised and bequeathed all the residue of her property on the following terms:—"To the Most Reverend Doctor Walsh, Roman Catholic Archbishop of Dublin, or his Successor in Office at the time of my death to be held by his as a Trustee for the Conference of the St. Vincent de Paul Society attached to the Jesuit Church of St Francis Xavier, Upper Gardiner street, to be utilised by the said Conference according to the objects of the St Vincent de Paul Society—namely, for the relief of the destitute poor in Ireland. I direct the said Archbishop to allow the stocks and Shares which may not be necessary to pay the legacies aforesaid and to pay my debts and funeral and testamentary expenses to remain in the investments in which they are at present; but I do not make this binding on him or his successors, but I leave it to their own discretion to act in whatever manner they consider best in the interest of the Conference which it is my intention should be benefited by the income arising from the property which I hereby bequeath to His Grace of Dublin as Trustee. If at any time the Conference referred to should cease to exist from any cause whatsoever, then I direct the said Archbishop or his Successor in Office shall apply the income of the money to such charities as he may deem proper, he giving preference to the charities in which the Jesuit Fathers in Gardiner street specially interest themselves."

Probate of the said Will was, on the 5th March, 1937, granted forth of the Principal Probate Registry of the High Court of Justice, Saorstat Eireann, to Daniel Joseph O'Rorke, the Executor therein named.

Dated this 17th day of August, 1937.
GORE & GRIMES, Solicitors, 6 Cavendish row, Dublin.
To Commissioners of Charitable Donations and Bequests, 128 Lower Baggot street, Dublin.

Pursuant to an Order of the High Court of Justice of Saorstat Eireann.

Made in the Matter of the Estates of PHILIP REILLY, Deceased, and JOHN REILLY, Deceased.

ANNE CAHILL, Plaintiff.
JAMES REILLY, Defendant.

The creditors of Philip Reilly and of John Reilly, both late of Rathbane, in the County of Meath, Farmers, who died on 22nd of March, 1934, and 13th of January, 1937, respectively, are, on or before the 2nd day of October, 1937, to send by post prepaid, to Messrs. Vance and Co., of 10 Nassau street, Dublin, the Solicitors for the Plaintiff, a lawful sister of both of the deceased, their names and addresses, full particulars of their claims and the nature of the securities (if any) held by them, and all persons claiming to be incumbrancers affecting the freehold registered land or real estate of the said Philip Reilly and John Reilly, respectively, are to enter and prove their claims at the Central Office of the High Court of Justice, Four Courts, Dublin, on or before the said 2nd day of October, 1937, or in default thereof they will be peremptorily excluded from the benefit of the said order.

Every creditor or incumbrancer holding any security is to produce the same at the Examiner's Office of the said Court on the 13th day of October, 1937, at 11 o'clock in the forenoon, being the time appointed for adjudicating on the claims.

Dated this 17th day of August, 1937.
JONATHAN GREVILLE, Deputy Examiner.
VANCE & CO., Solicitors for Plaintiff, 10 Nassau street, Dublin, and Bailieborough.

MISDIRECTED ECONOMY

DISTRICT JUSTICE COMPLAINS

PROBATION OFFICERS WANTED

DISTRICT JUSTICE LITTLE, in the Dublin District Court yesterday, complained that, while cities in England of the same size as Dublin had as many as twenty probation officers attached to the courts, there was only one officer for boys and one for girls in Dublin. The number, he said, would have to be increased because it was not economy—it was extravagance—to charge the State with the maintenance of youthful offenders, who could not be placed on probation, since there were not enough officers to look after them.

Mr. Little was dealing with charges against two boys of stealing apples and with being in illegal possession of two and a half stone of apples when arrested at Clontarf. The boys admitted having stolen them from the garden of Samuel Mercier, Seafield road, West, Clontarf.

Mr. Little said that offences such as these were being committed all over the place, and anyone who possessed a garden of fruit or flowers was allowed to know no peace. If they allowed their gardens to be a wilderness they would not be invaded, but if they grew anything at all they would have no safety. It was time people realised that there was such a thing as the right of private property. He would convict and sentence the boys to four days' imprisonment.

Mr. Mercier, the owner of the garden, appealed to the Justice not to send the boys to prison if there was any other course open.

Mr. Little said that he must put a stop to this pillaging of gardens. He had the alternative of putting the boys on probation, but he had only one probation officer for boys and another for girls. The number of probationers was far in excess of anything that these officers could cope with. In cities of similar size in England there were up to 20 probation officers to exercise supervision over boys and girls who had committed offences. The position left him with the embarrassing alternative of sending them to industrial schools or prison, as he could not impose a burden out of all proportion on the two officers. Economy was all very well in its way, but there was no economy if the Justice had no alternative to charging the maintenance of these boys and girls to the State. It was not an economy at all, but an extravagance. The number of probation officers in the city must be increased.

Mr. Little said that he would order the boys to pay a fine of 10s. each, with 5s. compensation.

TAXI DRIVER REBUKED

John Cregan, of Enniscorish, Rathkeale, Co. Limerick, was charged with refusing and neglecting to pay William Hannon, a taxi-driver, the sum of £2 4s. 3d., taxi fare, alleged to have been incurred by the accused man on Tuesday last.

Hannon, in evidence, stated that he was engaged by Cregan at Ross's Hotel, Kingsbridge, and drove him from there to the Four Courts Hotel, and afterwards to a public-house on the quays. They left there, and "Cregan told me," said witness, "that he was out to enjoy himself and asked me to take him anywhere I liked. I took him to Chapelizod, where we had nine or ten drinks at his expense. I suggested that we should go home, but he said that he had plenty of money, and we remained on."

Later they returned to Dublin and went to another public-house, where Cregan "stood" more drinks.

The witness said that when he told Cregan at about 6.30 p.m. what he owed for the taxi, Cregan offered him 10s., which he refused to accept.

Dismissing the case, Mr. Little told Hannon that his duty was that of a taxi-driver, and that he should not go around drinking.

Mr. J. J. O'Connor, solicitor, defended.

REMANDED

William Allen, aged 18 years, and of no fixed business or address, appeared on remand, charged with breaking and entering the house and shop at 5 Beaumont road, Drumcondra, the property of Owen Redmond, and stealing a coat and gloves valued at £3 12s. 6d.; breaking and entering Mr. John Sweeney's house at 2 Home Farm road and damaging furniture to the value of 30s.; breaking and entering Miss M. Malone's chemist shop at 19 Prospect road, Glasnevin, and stealing money and articles to the value of £3; and with breaking and entering the dwelling-house, 13 Richmond road, and stealing £1 and damaging furniture to the value of £2.

He was remanded in custody for a week for the attendance of witnesses.

MURDER CHARGE IN CAMERA

Patrick Keane, senior, a dealer, aged 59 years, of Middle Gardiner street; Patrick Keane, junior, also a dealer, aged 25 years, of Belmount yard, Middle Gardiner street; Patrick Coyle, a shoemaker, aged 37 years, of Spring Gardens street, Ballybough, and Andrew Boyle, aged 20 years, of Marlborough street, Dublin, were charged on remand with having, on July 27 last, conspired and murdered Patrick O'Neill, aged 37 years, a licensed hawker, of Belmount place, Middle Gardiner street.

The accused men had previously been charged with assault on O'Neill, who, it was alleged, was attacked with a hatchet. He died in Jervis Street Hospital while the accused men were on remand for the assault charge.

The evidence yesterday was taken *in camera* and the case was again adjourned for a week.

OILSEEDS — Linseed firm and dearer; River Plate now quoted £13 6/3 per ton for August-September shipments. Cottonseed quiet, values of white woolly sorts in forward shipment positions continue at £5 to £5 10/- per ton ex-ship terms, according to positions and quality. Palm kernels quietly steady; sellers of August-September and October shipments at £12 5/-, with buyers of all positions at 2/6 per ton less, later 2/6 easier.

PALM KERNEL OIL quiet; Liverpool-makes continue at £25 10/- for crushed and extracted crude, both g.m.q., and £29 10/- for deodorised, all naked ex-mills. GROUNDNUT OIL steady, but quiet, at £34 10/- per ton for local-made deodorised naked ex-mills. COCONUT OIL—English-made crushed crude in very quiet demand, and quoted £25 10/- naked ex-mills Liverpool. Imported descriptions in forward positions rather quieter at £23 5/- for white Ceylon, in drums, and nominally £23 10/- per ton for Straits, both c.i.f. to Liverpool.

SEED OILS—Cottonseed in quiet demand at 30/- for refined edible and 32/- for deodorised net naked. Soya steady, but quiet at 35/6 for deodorised naked. Linseed a shade quieter at 34/9 for raw and 36/3 per cwt. boiled, on spot, in barrels, all ex-mills Liverpool. PALM OIL quiet, and favouring buyers; sellers of soft oils in forward shipment positions now quoted £21 10/-, with transit option and 2/6 per ton less ex-quay terms. TALLOW quietly steady; South American beefs quoted 24/- to 25/6, according to quality, and Australian good colour mixed 24/6 to 25/- per cwt., both c.i.f. for shipment.

LONDON METALS MARKET

TIN DULL AND COPPER STEADY.

TIN market dull and prices ruled easier, as sellers were more in evidence. On balance official quotations marked a decline of 35/- per ton for cash and 25/- forward. Standard cash quoted £265 to £265 5/-, three months £263 10/- to £263 15/-; settlement £265 5/-. Sales amounted to 125 tons; cash at £265 5/-, three months £264 15/- to £263 10/-. English ingots quoted £268 5/-. East sold £264 16/3 c.i.f. per ton. COPPER steady with a moderate trade. Official quotations were 1/3 per ton lower, both cash and forward on balance. Standard cash quoted £57 1/3 to £57 3/9, three months £57 2/6 to £57 5/-; settlement £57 2/6. 800 tons changed hands: three months at £57 7/6, £57 2/6 and £57 3/9. Electros quoted £63 to £64, wire bars £64 per ton. LEAD met with fair support at lower rates. 900 tons sold: good soft foreign pig November £22 10/-, settlement £22 10/-; English quoted £24 16/3 per ton. SPELTER active, but easier. 1,400 tons sold: August £24 5/- to £24 1/3, September £24 5/- to £24 2/6, November £24 5/- and £24 6/3; settlement £24 9/6 per ton. SILVER idle. Cash quoted 21⁷⁄₁₆d. to 21⁹⁄₁₆d., three months 21⁹⁄₁₆d. to 21¹¹⁄₁₆d.; settlement 21½d. per fine oz. ANTIMONY firm. English Regulus spot £87 to £88; Chinese do. spot £78, August-September nominal per ton c.i.f.

SECOND SESSION.—Tin quiet. 15 tons sold: cash at £265 to £265 10/-, closing buyers £265 5/-, three months sold £263 15/-. Youth and Age Harvesting in an Awkward Corner.

DAIRY EDUCATION IN GERMANY

A LONG APPRENTICESHIP

In view of the World's Dairy Congress taking place in Berlin next week, some notes on the mode of dairy education adopted in Germany should be of interest in this country. The Reichsnährstand (Agricultural Estate for Nutrition), with the approval of the Reich Ministry for Food and Agriculture, has arranged professional dairy education on lines which are now obligatory for the whole of Germany.

Only such persons who have acquired the "Dairy Master's Certificate of the Reichsnährstand (Agricultural Estate for Nutrition)" have the right to act as technical managers of dairies in which a daily minimum of 500 l. of milk or cream are handled.

The education of German dairymen begins with a three years' apprenticeship, six months of which they have to spend on an agricultural farm in order to learn the proper methods of milking and cattle treatment. In this manner, the dairyman is brought into personal contact with the peasant farmer. This period is followed by a training course at a recognised educational dairy. The personal qualification of the dairy master is carefully considered, and great care is taken that his apprentices should receive a proper all-round training. The superintendence over the education of the apprentices is incumbent upon the Regional Peasants Group. This body at least once a year convokes a working committee of all persons responsible for the training of apprentices, in order to discuss and, if necessary, to improve the methods employed in dairy education.

Journeymen's Course

The apprentices have the opportunity of qualifying as dairy journeyman in the following branches of dairying:—

1. Dairy Farming in General.
2. Emmenthaler Cheese Making.
3. Soft Cheese Making.

The examination must reveal on the part of the candidates a practical knowledge and experience in the chief branches of dairy farming, including book-keeping and the keeping of the quality records.

After two years as journeyman a training course lasting three months may be attended at a recognised dairy institute, whereby the qualification as head dairyman or head cheesemaker may be obtained. The training given in these courses is chiefly practical. At the final examination the knowledge in business management, quality improvement, marketing, business organisation and in all other matters taught at the training course has to be proved.

The training courses for a master's certificate have also been improved and standardised for the whole Reich. Having worked for four years as a dairy journeyman, and having passed a preliminary examination in theoretical and practical dairying, the candidates may obtain the dairy master's certificate after a training course which lasts six months at a recognised educational dairy institute. Practical training is given in the educational department of the dairy institute. The chief sciences taught are physics, chemistry, book-keeping and the knowledge of the respective laws and regulations. After having gone through a professional training lasting seven and a half years the candidate who has obtained a master dairyman certificate acquires the right to act as a technical director in a dairy or a cheesery.

Varied Knowledge

In order to obtain a licence as a master instructor, to whom a certain limited number of apprentices may be assigned by a special committee, the applicant has to prove that he has conducted the management of a well-equipped and, as far as possible, also many-sided dairy establishment without reproach. The master instructor has also to attend the regular courses of lectures and discussions of questions regarding dairy education.

The last and highest degree of education to be attained in German dairy farming is the degree of "expert advisor," obtainable only after following another special course of lectures and only if the examination for mastership has been passed with the note "good," at least. The expert advisors are the competent authorities for advice and information in the leading dairy organisations with regard to all branches of the dairy industry.

This general regulation with regard to dairy education has been made by the Reichsnährstand (Agricultural Estate for Nutrition) in co-operation with the Central Organisation of the Dairy Industry (Milchwirtschaftliche Hauptvereinigung) after the experiences made in all branches of dairy farming had been collected and carefully sifted.

PIG FEEDING—A WARNING

A warning is again issued by the Northern Ireland Ministry of Agriculture to pig feeders against the use of fish meal, cod liver oil and linseed cake meal in rations for fattening pigs. From reports received, it is evident that many pig feeders are not taking sufficient care in the choice of foods and that as a result soft oily bacon of inferior quality is being produced. The foods mentioned above will produce this type of bacon, and their inclusion in rations for fattening pigs cannot be recommended. Further, the use of excessive amounts of maize meal, or of other maize products, in pig rations is also a common cause of bacon of soft, oily type being produced, and should be avoided. Although the lower price of maize meal in comparison with other feeding stuffs may tempt feeders to include larger proportions of this food in mixtures than is the usual custom, the far-reaching effects which the production of bacon of poor quality will have on the pig industry generally should be obvious to everyone, and it is, therefore, in the interests of all pig feeders, irrespective of the numbers of pigs kept, to ensure that the rations used are such as will produce bacon of the best quality.

CROSS-CHANNEL CROP OUTLOOK

WHEAT DOING WELL

According to recent estimates, the yield of wheat in England and Wales is at present forecast at about 16 cwt. per acre, which is about 1¾ cwt. below the average of the past ten years and about ¼ cwt. per acre below the yield of last year. At 1,731,000 acres, the area under wheat is greater by 1.6 per cent. than last year, and the total production is estimated at 1,385,000 tons, or 7,000 tons more than last year.

The area under barley has increased by 4,000 acres (0.5 per cent.) to 823,000 acres and the probable yield is estimated at about 14¼ cwts. per acre, which is about 2 cwt. less than the average of the past ten years and 1.9 cwt. below last year's yield.

The total production of barley is estimated at 588,000 tons or 75,000 tons less than last year. Oats are expected to yield about 14¾ cwt. per acre, or about ½ cwt. less than in 1936 and about 1 cwt. below the average of the past ten years.

The acreage under oats shows a decrease of 198,000 acres (13.9 per cent.), and the total production is estimated at 898,000 tons or 182,000 tons less than in 1936. Beans are estimated to yield 16 cwt. per acre, or about ½ cwt. less than the ten years' average; the yield of peas at 14 cwt. per acre is about ½ cwt. below the average of the past ten years.

Roots Healthy

Turnips and swedes look healthy and vigorous. The acreage under turnips and swedes as returned on June 4th shows a decrease of 9,200 acres (2.05 per cent.) compared with last year, and that under mangolds a decrease of 39,200 acres (15.9 per cent.). On present appearance the yield of turnips and swedes and of mangolds is expected to be about average. The sugar beet acreage is less by 42,100 acres (12.1 per cent.) than last year. The present indications are that the yield will be about average, but the crop neds more sunshine.

Heavier Hay Crop

Haymaking has been protracted owing to unsettled weather, but the condition of the crop is fairly satisfactory. The yield per acre of seeds hay is estimated at 30 cwt. compared with a ten years' average of 26½ cwt. and a yield last year of 25 cwt. Meadow hay is estimated to average 21 cwt. against 20¼ cwt. last year and a ten-year average of about 19½ cwt. The total acreage under hay is 131,000 acres greater than last year, and the total production is estimated at 7,108,000 tons or 701,050 tons greater than in 1936.

POULTRY FOR BREEDING PURPOSES

Birds approaching the end of their first laying season, which are intended for breeding, should be examined now and the best selected for retention. Only large-framed good-bodied birds typical of their breed and with plenty of stamina should be retained for breeding purposes. Birds which show any defect, weakness or delicacy in constitution should not be selected, no matter what their egg records may be. Such birds are best disposed of for table purposes before moulting commences. It is a wise plan to select a greater number of birds than will be required eventually for the breeding pens, provided the accommodation available permits of this being done, so as to allow for the removal of any birds which may show undesirable characteristics at a later stage.

Birds selected for breeding should be encouraged to take a rest from laying and induced to moult, so that they may be in a suitable condition to produce good eggs for hatching early in the season. This may be done by giving them a complete change of ground, housing and food. The selected birds should be put out in a field and a portable house provided for them. The feeding should consist largely of grain, and little, if any, mash given. A mixture of whole oats and wheat, or oats only, is suitable for this purpose. Two feeds of grain daily will suffice, and the quantity given at each meal should be regulated so that the birds are hungry for the next feed. At no time, however, should the birds be allowed to become too hungry, as this may have injurious effects later. The feeding of a grain mixture should be continued until moulting is general in the flock, when the feeding of mash can be introduced. The mash should consist of plain, body-building foods, such as bran, pollard and maize meal; milk or other protein-rich foods, such as fish meal or meat meal, should not be included in the diet.

(Continued from Previous Column,)

be useful for young pigs, particularly during the winter months, its use for older pigs is neither necessary nor economical.

If separated milk is available, there is no necessity to use any other protein supplement in pig rations, but if milk is scarce the most desirable substitutes in the case of fattening pigs are high-grade meat meal and extracted soya bean meal. Linseed cake meal is both expensive and unsuitable for feeding to pigs intended for bacon. Meat meal and soya bean meal are cheaper than fish meal, and their use instead of fish meal will cheaper the cost of producing bacon pigs.

SHEEP DIPS AND DIPPING

PRACTICAL HINTS

An exhaustive article on "Sheep Dips and Dipping" in the Highland Society's "Transactions," while approving of the precautions taken for stamping out sheep scab, states that "It is quite time that the present regulations should be reconsidered, and that full consideration should be given to the control of other pests, attacks of which are far commoner, and cause far more damage than sheep scab."

The article states that when manufacturers of sheep dips have been asked why they have not evolved new dips for the treatment of maggots and ticks, they have replied that if a dip did not conform to the regulations for a statutory dip for sheep scab they would be unable to find a market for it. A prospective customer, they say, no matter what pest he has to deal with, always asks if the dip is an approved dip, and if the dip does not belong to this category he has no use for it. This sheep-scab complex has had a serious inhibitory effect upon research for the evolution of new dips for the treatment of parasites other than scab. It is a mere presumption, which is not borne out by experiment, that dips suitable for scab will control other parasites. Until such time as dips suitable for use against other parasites are approved for use in areas free from scab, there is little incentive for manufacturers to attempt to place such dips upon the market. The regulations have also had a serious effect by retarding the application of recent advances in our knowledge of insecticides and antiseptics to sheep dips.

Some Suggestions

The conclusions arrived at are that:—

The statutory summer dipping of sheep controls the active form of scab, but has only a partial effect on the sheep maggot fly. It exerts little control over any of the other parasites.

Summer dipping, taking place in the dormant period, has doubtful effect on latent sheep scab.

The reasons why compulsory universal dipping has failed to eradicate sheep scab in Scotland appear to be (a) failure in certain cases to collect all affected sheep for dipping, (b) the rapid washing off of the dipping solution by rain in a humid climate, (c) lack of power of dipping solutions to penetrate encrusted scabs and hiding places of mites, (d) dipping during the period when the disease is latent. Regulations for dipping for scab should be made more stringent in those areas where scab is still found.

When compared with the relatively small number of sheep affected with scab the other external parasites are of much greater economic importance.

Sheep Maggot Fly

The sheep maggot fly is the most wide-spread pest, and statutory summer dipping only partially controls it, even when the sheep are dipped under proper conditions. To control maggot fly it is essential that the dipping solution should be kept clean. Methods for accomplishing this are described, and the formula for a type of dip suitable for preventing strike for a reasonable period is given.

Ticks are dormant during the time of summer dipping, and are not destroyed by such dipping. An efficient dip to control ticks has yet to be evolved, and calls for further experiment. Sheep should be dipped before they are moved from tick-infested ground to clean areas.

Keds are not controlled by statutory double dipping because their pupæ, which are unaffected by water-soluble dips, hatch out about a week after the second dipping.

Water-soluble dips are readily washed off by rain, and lose their antiseptic properties in a very short time. Waterproof dips are recommended.

FIGHTING THE MAGGOT FLY

At this time of year, especially during spells of damp, sultry weather, flocks should be closely watched for attacks of the sheep maggot fly. To aid in preventing attacks, the sheep should be kept as clean as possible. All dirty wool in the region of the tail and hindquarters should be clipped off. Since sheep which are scouring are very prone to attacks of maggots, the flock should not be changed suddenly to fresh pastures containing a high proportion of clover and of young succulent grass as, in such circumstances, scouring will likely occur. When attacks occur, the maggots should be rubbed out, using carbolic sheep dip to assist in dislodging the pests. Sores should be dressed finally with an ointment made up of powdered sulphur mixed with either fresh lard or linseed oil. A supply of this ointment should be available always in the event of attacks occurring.

Main line railway traffic between Stoke-on-Trent and Crewe was held up for two hours yesterday, a piece of flint causing a shunting engine and a horse box to foul the points and become derailed at Longport, Stoke-on-Trent. The flint became wedged in a slot at the points and single-line working had to be put into operation.

BACON SCARCE IN DONEGAL

COMPLAINTS MADE BY MERCHANTS

FROM OUR CORRESPONDENT.

LETTERKENNY, Wednesday.

Letterkenny and district wholesale and retail grocers complain of the great difficulty experienced by them in getting bacon supplies, which they believe is due to the curers having to export bacon to safeguard their quota before supplying the home market. Another grievance is the high cost of bacon—136s. 6d. per cwt., retailed at 1s. 5d. to 1s. 6d. per lb.

At a meeting of merchants here it was considered that they had a grievance, as factories were stocked with bacon and they could not get their orders fulfilled owing to the quota restrictions of the Bacon Marketing Board. The position was fully explained to Messrs. D. McMenamin and J. Friel, T.D.'s, who promised to do all they could to mend matters. A resolution was passed, calling upon the Bacon Marketing Board to release from existing stocks in Donegal factories at least adequate supplies to meet the present needs.

CHURCH SERVICES

ST. PATRICK'S CATHEDRAL.—Holy Communion at 8 a.m. Matins at 10 o'clock. Psalm, 97. Urbs Fortitudinis, 38. Hymn, 552. Evensong at 4 o'clock. Psalm, 101. Magnificat, Nunc Dimittis, Farrant in G minor. Anthem, "If ye love Me," Stewart.

CHRIST CHURCH CATHEDRAL. — Morning Prayer at 10.45 o'clock. Benedictus. Hymn, 354. Evening Prayer at 3 o'clock. Tours in F. Anthem, "Hide Thy face from my sins," Wes.

Twenty years old William Henry Kane, who ran away from a Borstal institution on May 31 and lay hidden in the densest part of a Devon wood for nearly a month, was captured by a policeman's dog. This was stated at Devon Quarter Sessions, Exeter, yesterday, when Kane pleaded guilty to charges of housebreaking and shopbreaking at Newton Abbot and Teignmouth.

No more Summer SLUGGISHNESS

This is the time of year when everyone should feel bright, lithe and vigorous. But far too many people don't; they're languid, heavy, "can't be bothered."

There's a double-quick remedy for putting an end to that state of affairs. Every morning before breakfast drink a glass of plain water into which you have stirred a teaspoonful of Fynnon Salt. This cool, non-fizzy saline is laden with invigorating elements—Sodium, Potassium, Lithium, etc. Their function is to clarify and revitalise the blood-stream by carrying Uric Acid out of the system. It is accumulated Uric Acid that saps your energy and makes you feel sluggish. It is the job of Fynnon Salt to rinse Uric Acid away. Thousands of people know how effectively it does that. Fynnon Salt earned its wonderful reputation as 'the mystery remedy for Rheumatism,' but its curative value goes much further. It gives tone and vigour to the system, a trim neatness to the figure, a new vivacity to the body.

Get a 1/6 tin from your Chemist and take Fynnon Salt daily. There's no better bracer—no better antidote for sluggishness.

DUBLIN QUIET

GUINNESS HARDER

RISE IN SUNBEAM WOLSEY ORD.

Public interest on the Dublin Stock Exchange yesterday remained at low ebb, but operators inclined to take a more hopeful view regarding the prevailing crisis, and prices hardened slightly.

The Free State Funds were well maintained with the exception of the Fourth National Loan, which eased to 99⅞, and 4 per cent. Land Bonds, which fell 10s. War Loan improved to 100 3/16, and Dublin 4¼ per cent. 1955/77 gained 15s.

Banks were busier, and generally presented a steady appearance.

Guinness opened easier, but later a little support brought the price up to 130s. 9d.

Rails made a mixed showing. Great Southern Ord. were buyers, but the Guaranteed fell a point. Great Northern Deb. were raised to 75.

Dublin Tram Ord. held 13s. 6d., and Alliance Gas Ord. hardened to 34s. 10½d.

Carroll Ord. added pence, and A. Millar Pref. advanced to 17s.

Sunbeam Wolsey Ord. were strong buyers following the excellent trading results for the past year, and a few shares changed hands at at 37s. 6d., a rise of 2s. 6d. on the day. The rest of the Irish industrial list showed practically no change.

Tobaccos, following their recent weakness, attracted some small support, and B.A.T. Ord. gained 1s. 3d., while Imperials recovered to 153s. 9d.

Textiles also showed a harder trend, and Coats Ord. moved up to 45s 1½d., and Courtaulds to 54s. 1½d. Other changes reflected the improved tendency.

LONDON BETTER

RHODESIAN COPPERS BOUGHT

With the end of the account in sight and the Far Eastern hostilities continuing to overshadow sentiment, business on the London Stock markets yesterday proceeded on quiet lines. Nevertheless, conditions were distinctly brighter than on the two preceding days, as operators were less disposed to reduce commitments, and some "bear" covering was in progress. Prices all round developed a steadier tendency, and, though improvements at the close were mostly unimportant, several good features were noticeable. Rhodesian Copper shares, which were supported on Paris account, advanced rapidly under the lead of Roans, and showed to particular advantage; while another notable development was a sharp recovery in Mexican Eagle Oil shares.

BRITISH FUNDS.

Interest in Gilt-edged stocks was limited, but buying force was sufficiently strong to enable the market to maintain the firmer tone which characterised Tuesday's late dealings. War Loan added another ⅛, while Local Loans rallied to 85 5/16. Several of the Municipal scripts also moved favourably, and the Irak Loan registered an advance. India Stocks shared in the rise to the extent of ¼.

FOREIGN BONDS.

In the Foreign Bond section speculative inquiry at the reduced levels imparted a firmer tendency to Far Easterns at the outset, but demand dwindled, and eventually Japanese issues showed new losses, ranging up to 2. Chinese Fives of 1912 finished unchanged, after reaching 71, and the Fives of 1913 a point up at 84, against 85, in early trading. Interest in South American and European descriptions was at a low ebb, and the only notable change among the latter was a fresh decline to 43 in the German Young Loan.

RAILS.

British Rails were in a hesitant mood, the market being affected by disappointment with the increase in the traffics and fears concerning the attitude of the men to the wages award. Most of the junior stocks came on offer, and during the afternoon prices receded throughout the list. L.M.S. Ord. lost another ⅜, and Great Western Ord. declined to 63¼. Dealings in Foreign Rails resulted mainly from liquidation of San Paulo Ord., and the stock dropped a point to 87½. American Rails also were lower where changed, and the only significant movement among Colonials was a small gain in Canadas.

INDUSTRIALS.

Industrials began slowly, but repurchasing on a small scale gave the market a firmer undertone, and some of the leading issues picked up part of their recent losses. Movements in Tobaccos, Shipping and Motor issues were mostly in the right direction, and higher prices were reached by several Iron and Steel issues. Nickels showed to best advantage among Transatlantics. On the other hand, Ismay Industries declined owing to disappointment with the final dividend, and Tunnel Cements were marked down following the news of the share offer.

MINES.

Rhodesian Coppers formed the most interesting Mining section, but more interest was directed to Kaffirs, and issues such as West Wits., Western Reefs and Anglo-American, which have been dull of late, made a much better showing. West Africans participated in the upward movement, and Diamond shares were in fairly good form. Elsewhere, the rise in Wolfram prices stimulated Mawchi and certain other issues.

FINANCIAL PARAGRAPHS

Marston Valley Brick

Despite the disappointing building figures, Mr. A. W. Allard, chairman of the Marston Valley Brick Company, announced at an extraordinary meeting of the company yesterday that it had been impossible to meet the demands for the company's products, and orders had had to be refused. For the four months to the end of July the company's sales were 30 per cent. up on those for the corresponding period last year, and Mr. Allard said the board saw no reason why the demand should not continue. Dealing with the building industry Mr. Allard said he saw no justification for saying that the building trade was falling off. There might be some variation in demand, he added, but, even if there was a falling off, the company had efficient works, and should not suffer as much as other works which were not so efficient. The meeting was held to approve the conversion of 200,000 of the unissued Ordinary shares into 5 per cent. Cumulative Preference shares. New capital is to be issued to finance extensions to the Ridgmount works.

Tunnel Portland Cement

The directors of the Tunnel Portland Cement Company, which has already more than trebled its Ordinary capital during the past three or four years, is proposing to issue new shares for cash on bonus terms. Existing "A" and "B" Ordinary shareholders are offered the right to take unissued "B" shares as they think fit up to the total number of 130,000. The shares, which are of 10s. each, are offered at the price of 40s. per share, which compares with a current market quotation of about 46s. 9d. Arrangements have been made to place at the same price any shares which may not be applied for by shareholders. The shares will rank with the existing 1,470,000 Ordinary shares for the final dividend to be declared for the year ending on December 31, but not for the 10 per cent. interim payment recently declared.

Coats' Coming Dividend

An interesting Textile announcement immediately ahead is that of J. and P. Coats, whose interim quarterly dividend is expected to be maintained at 6d. per £1 of Ordinary stock, equal to 2½ per cent. The market is in hopes of the total distribution for the year being maintained at the previous year's level of 10 per cent. It is not expected that any further substantial losses will be incurred in Spain, and it is considered not unreasonable to anticipate that returns from a number of other countries will show some further increase. In these circumstances the trend of the company's profits should in the future be upward rather than further downward.

Pending I.C.I. Interim

The pending interim dividend of Imperial Chemical Industries is not arousing much interest in the stock markets, although an evening up of the interim and final payments is considered a possibility by some City people. Last year, out of earnings of 12.4 per cent. on the Ordinary capital, the company paid an interim of 2½ per cent. and a final of 5½ per cent. Since 1932 interims of that amount have been paid, but prior to the depression 3 per cent. was distributed by way of interim. It is suggested that, now the plan for dealing with the Deferred capital is finally out of the way, the directors might feel that consideration may be given to increasing the interim dividend. Apart from that, however, a small increase in the total payment for the year seems not unlikely, and the current price of the £1 Ordinary stock at 38s. 6d., to yield £4 3s. per cent. on last year's 8 per cent. distribution, discounts this.

Davy and United Engineering

A Sheffield firm of steelworks engineers, Davy and United Engineering Co., has secured an order from the Steel Corporation of Bengal for the supply of extensive rolling mill plant, the manufacture of which will occupy many months. It is for the equipment of the Corporation's new steelworks. The order is for a 34-in. reversing rail, section sheet bar and billet mill, with all the requisite auxiliary machinery. The company doubled its net profits for the year ended March 31 last at £44,297, as against £22,706, and 7½ per cent. was paid, as against 5 per cent. On Monday an issue of 76,579 £1 shares, to complete the authorised capital of £500,000, was offered to shareholders at 23s. per share.

OIL YIELD

Mexican Eagle Oil Co.—Production for week ended 14th August, 1937, was 260,000 barrels.

THE INDUSTRIAL MARKET

MODERATE IMPROVEMENT

Although business in most sections of the Industrial market yesterday remained on a small scale the tone was rather better.

Improved advices from Wall Street brought in a few buyers to the Transatlantic section, and prices closed quietly steady in the late dealings. Among Gramophone and Radio issues, Decca Preference strengthened to 8s. 9d., but E. K. Cole receded further to 15s. 4½d.

Cable and Wireless stocks were slightly easier, the Preference at 107⅝ and the Ordinary at 83⅝.

Although business in Iron, Coal and Steel shares was of a quiet character yesterday the market in them had a slightly harder appearance, price changes mostly favouring holders.

MOTORS NEGLECTED.

Electrical Equipments were quiet, and had an irregular tendency. The Motor and Aircraft groups were rather neglected, and the few changes recorded were of small importance.

Among the Aircrafts there was a small inquiry for Imperial Airways, which improved to 34s. 6d., while Parnalls were also a shade better at 9s.

Among Drapery and Stores issues, Marks and Spencers continued in moderate request up to 3 11/16. A generally easier tone prevailed among the Provisions, but no important changes were recorded.

TEXTILES BETTER.

A moderately firm tone ruled in the Textile section, sentiment being assisted by the good Calico Printers' results. The Ordinary shares of this company hardened to 10s. 3d., while the Preference gained 6d. to 15s. 10½d. Patons and Baldwins were also favoured, recovering to 59s. Rayons remained quietly firm.

With few exceptions, Breweries remained on the dull side. Guinness, Taylor Walker, Watney Deferred, Walker-Cain, and South African Wines all finished easier in the absence of supporting orders

In the Tobacco section "Bats" rallied on a little "bear" covering and closed 1/16 harder on balance at 5 15/16. On the other hand, Gallahers lost the turn at 5 15/16 and "Imps" at 7 11/16.

Newspaper issues continued uncertain. *Daily Mail* and General Trust improved at first to 2, but reacted later to 1 15/16. Associated Deferred, *Daily Mirror* and George Newnes all shed a few pence.

HONGKONG BANKING LOWER.

Banking shares were somewhat steadier, but the improvement recorded did not amount to much. Chartered of India hardened further to 13⅞, but Hongkong Banking, after fluctuating between 98 and 102, eventually finished 1½ easier on balance at 100.

The Shipping section seemed uncertain. The Miscellaneous section made a mixed showing and few changes of note occurred.

In the Cement and Building Material group, Tunnel Portlands were an active market on the proposed issue of the remaining "B" Ordinary shares. After falling at one time to 2¼, however, the shares finally closed only 1/16 easier on balance at 2 7/16.

MEXICAN EAGLES RALLY

At the start yesterday the dull tendency which had characterised the Oil share market on Tuesday continued in evidence. While this applied to the majority of shares, exceptions were provided by Mexican Eagles and Kern Rivers. The sharp fall in Mexican Eagles on Tuesday evidently made the shares appear attractive to speculators, and bidding quickly brought about an improvement in price. The change in sentiment forced "bears" to close, and this, coupled with French buying, assisted the upward movement in the price. Late last evening news came to hand from Mexico City to the effect that hopes of a settlement of the strike on the Mexican Eagle properties had been dashed, conversations between the management and the employés having reached a deadlock, as a result of which they have been suspended indefinitely. While the uncertainty exists the market must remain an extremely sensitive one. After advancing from the overnight's level of 11s. 4½d. to 13s. 3d., Mexican Eagle shares left off at 12s. 10½d., the result of the day's business being a recovery of 1s. 6d. As has been the case for some time past, Canadian Eagles were a comparatively quiet market, closing with a trifling gain at 14s. 10½d. Apart from the leaders, interest centred largely on Kern Rivers. There was again keen demand for the shares, which was accompanied by vague rumours of highly favourable developments on one of the company's Californian properties. The price improved 7½d. to 8s. 4½d.

RUBBERS STEADY

Rubber shares gave a better account of themselves yesterday, notwithstanding the fact that support remained at an extremely low point. The market opened in subdued fashion, but the improvement in commodity conditions assisted sentiment, and, in consequence, dealers encountered little fresh selling. Most issues were left at their previous closing levels throughout the day, and Rubber Trust, Anglo-Dutch and one or two others managed to register small gains. The commodity section was fully steady, with business on a fair scale and spot rubber selling at 8⅞d. per pound.

LONDON "STREET" MARKET

With Wall street quiet, very little of interest developed in the American section of the "street" market last evening, and prices were not materially altered. U.S. Steels put on ⅛ to 119⅞, Anacondas were bid for at 12¼, and there were buyers about for Nickels at 65½. Chryslers and General Motors held around 117⅞ and 59 respectively, but Tractions, on the other hand, reacted to 26 11/16, and Radios were offered at 11⅛, after changing hands at one time around 11 5/16. Shell Unions were rather sellers at 26⅛. Elsewhere business was at a standstill, and the few dealers that assembled soon dispersed.

LONDON MINING MARKET

FURTHER RECOVERY IN KAFFIRS AND COPPERS

All things considered, the record of the Mining market yesterday could not be regarded as other than satisfactory. The overnight rally in Kaffirs made further headway. As on preceding days, the developing issues were claiming most attention, with Venterspost promised on rumours of favourable developments, but the dividend-payers in some instances were not ignored. Little was to be said of other Gold shares, West Africans remaining a very disappointing Westralians. On the other hand, dealers reported some very good buying of Diamond shares, though the De Beers issues exceptionally failed to benefit. The Copper issues practically monopolised the attention of jobbers in the Rhodesian section, a further general recovery being seen, and Mawchi were again a strong feature in the Tin market on the fresh advance in Wolfram. Lead-Zinc shares aroused little interest, and were, if anything, rather easier, though it could not be said that much selling was going on. Closing prices:—

THE MONEY MARKET

GOLD FALLS AGAIN

The price of gold yesterday was once more on parity with the dollar rate. The quickness with which the price went to a discount on withdrawal of official support of the Gold Market appears to have induced the authorities to continue their operations. With the dollar rate weaker at the fixing at 4.98.90, the price of gold was 139s. 4½d. per fine oz.—a fall of 1½d. on Tuesday. The amount of metal changing hands was £201,000.

Money continued in quiet demand in Lombard Street at ½ per cent., while discount rate for short and three-months' maturities was maintained at 9/16 per cent.

Silver eased 1/16d. to 19 11/16d. a standard ounce, cash and forward.

A sharp fall in the dollar, accompanied by acute weakness in the forward franc, revived interest in the Foreign Exchange Market yesterday. Business, which had been reduced to very small proportions for some time past, showed a substantial expansion, and the wide fluctuations in rates provided a striking contrast to the unexciting movements of recent days. The sudden expansion in selling pressure on the forward franc caused some surprise. The concentration of sales upon the longer positions is significant. It reflects the general view that the present complacency of the French labour elements is too good to be true, and that the franc is, therefore, likely to come in for a further severe test in the autumn. The weakness of the dollar was a little less surprising. The renewal of Continental selling had depressed the market in the previous day, and when Japanese selling was resumed from New York quarters yesterday the weakness immediately became acute, more especially as the overnight setback on Wall Street had checked the flow of investment capital to Wall Street. A large number of European currencies shared the weakness of the dollar. In the Eastern group the Shanghai dollar was unquoted, and dealings in other exchanges were accomplished only with difficulty.

AMERICAN FINANCIAL NOTES

Reuter's Telegrams.

LOWER OUTPUT OF STEEL INGOTS.

The "Iron Age" states that steel mill activity for the current week is at 83.0 per cent. of capacity, compared with 84.5 per cent. last week. The magazine adds that the turning point for the better in the volume of new business seems to be indicated. Back logs are being further reduced by excess deliveries over new orders, but it is expected that larger tonnages from the automobile industry by the end of the month and from miscellaneous consumers will again build up back logs by September. The strength of steel scrap continues.

PETITION TO PRESIDENT FOR LARGER COTTON LOANS.

A petition signed by twenty-one Senators of the cotton-growing States will be submitted to President Roosevelt to-day. The petition urges cotton loans of 10 cents. instead of 9 cents., and that the difference between 10 and 12 cents be paid to producers this year instead of next year.

B. F. GOODRICH DIVIDEND.

The B. F. Goodrich Co. has declared a dividend of 50 cents., the same as previously. The company reports for the first six months a net profit of $4,011,000 (equal to $1.90 per Common share), compared with $2,728,000 ($1.47) for the corresponding period of 1936

The bookings of the Baldwin Locomotive Works during July amounted in value to $238,000.

The American Telephone and Telegraph Co. has declared the regular quarterly dividend of $2.25.

WORK IN IRISH FLOUR MILLS

STATEMENT FROM CORK

From Our Correspondent.

CORK, Wednesday.

The suggestion that several Free State flour mills will have to close down for weeks and that thousands of men will be affected, owing to production beyond the quota allowed, is not confirmed in Cork.

When a director of one of the Cork flour mills was asked to-day if there was a likelihood that thousands of men engaged in the flour-milling industry would be affected because some mills would have to close down for several weeks owing to over-production, he said that the statement referred to was not authorised by the Flour Millers' Association, and, in fact, was entirely misleading. He added that the Secretary of the Association had been instructed to issue an official denial.

A Reuter Washington telegram says:—Following complaints that the Nazi organisations in the United States are running military training camps in New Jersey and elsewhere, the Attorney-General has ordered an investigation to be made. The Federal Bureau of Investigation will carry out the preliminary inquiries, which will be followed by a more formal Government inquiry if the facts warrant.

IRISHMAN'S DIARY

Is Green Unlucky? : America's Sporting Minister : Paris Gay Again : Ambulance Officer Gully : "The Bakers' Tram"

Lady Adare

Lady Adare seems determined to carry on the sporting tradition of the illustrious house into which she has married.

This season she raced a horse named Golden Gate, but so far the animal has brought no triumph to his owner, whatever may happen as the season waxes older.

Lady Adare will in future have more than one representative to carry her colours on the Irish Turf. She purchased the Vencedor-Brenta filly from the Belfort Stud yearlings put up at the Sales last week. Although this youngster did not fetch a big price—for she was knocked down at something like 80 guineas—she may prove an excellent bargain. That seems to be what happens with the animals auctioned cheaply in Dublin—they generally cover themselves with glory.

Paris by Night

An American out to sample the sights of Paris tells me that night life in the gay city has staged a remarkable come-back this year. Whether it is due to devaluation, to the Exhibition, or whatever else, life after sundown has become gaudier and bawdier than ever before—and, of course, it is also more expensive—*cela va sans dire!*

As usual Parisian depravity is just staged for the tourist who cannot think of Paris as anything but a city of the *mechant*. In reality Parisians are not at all attracted by the bawdy.

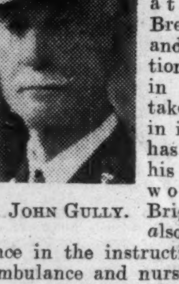
Auto car companies transport tourists at night in search of sensation. They visit hand-picked cabarets, where exhibitionists are hired for the occasion. All sorts of new haunts have sprung up in Montparnasse, which now vies with Montmartre as a haunt of the adventurous.

One of the best money-making sites in Paris at the moment is "Chez Don Juan," and it is something like an echo of the last decade to find that Harry Pilcer is its chief attraction. Harry Pilcer, the dancer of New York, partnered the late Gaby Deslys in her heydey! and all is vanity!

The Ambulance Officer

Everyone who frequents Dublin's theatres and cinemas is familiar with District Officer John Gully, of the St. John Ambulance Brigade. Regularly every evening District Officer Gully makes his round of inspection to the members of the S.J.A.B. who undertake duty in places of entertainment, and his brisk, businesslike air and military stride make him conspicuous.

For over thirty-four years District Officer Gully has been doing the work of the St. John Ambulance Brigade in many parts of the world. He joined the first S.J.A.B. Division founded in Ireland—at Guinness's Brewery in 1903—and from the inception of the movement in Ireland he has taken a leading part in its work. Not only has he given much of his time to public work with the Brigade, but he has also utilised his experience in the instruction of recruits to the ambulance and nursing sections.



D.O. John Gully.

Since his retirement from the service of Messrs. Guinness District Officer Gully has devoted his entire time to the business of the Ambulance Brigade, so that he has made a full-time occupation, without remuneration, of what began as a useful hobby.

War Service

Two years after the formation of the St. James's Gate Division of the St. John Ambulance Brigade—and that Division was the first to be formed in Ireland by Sir John Lumsden—Mr. Gully joined the Royal Naval Sick Berth Reserve, and in that capacity took part in the war. From August, 1914, until April, 1919, he served in England, France and Germany, and had the unusual experience of having been in an aeroplane between France and England on one occasion for five hours. That for a man of 52 years at the time was an ordeal.

In the fighting in Dublin in 1922 Mr. Gully took a prominent part in the merciful work of the Ambulance Brigade, succouring all who needed attention without reference to side or party. It was this splendid work which did so much to give the St. John Ambulance Brigade the position in popular esteem that it holds to-day. In earlier years Mr. Gully was a leading member of the team that so often competed against the famous Belfast Fire Brigade, and in the years 1913-14 he captained the teams which won the Iveagh Cup.

A decade ago his services were rewarded by his admittance to be an Honorary Serving Brother of the Order of St. John.

Unlucky Colour

Many motorists, probably inspired by their wives, consider green an unlucky colour. Considering that green has been accepted as a "national" colour, the number of Irishwomen who refuse to have anything green in their clothing is amazing. Recently an English firm which raced motor cars decided that they would cease to use the national racing colour of England—green again—because it had brought them no luck. When they painted the cars black, strange to say, their luck did change. Actually, green is not a good colour for a car because of its camouflage effect against foliage. A correspondent in the *Autocar* considers that red is the best colour, and attributes the immunity from accident of British Post Office vans partly to the fact that they are painted red. All grey is considered a bad colour just before sundown, particularly if the car is driven by one of those persons who neglect to light their lamps until the last legal minute.

The Sporting Minister

Directly Mr. Cudahy, the American Minister, stepped off the special at Kingsbridge on Tuesday I was informed that he would hunt this season. Then I reckoned that the tall American would need a weight-carrying hunter, a type which is not so much in demand these times as formerly. Mr. Cudahy is tall, like his predecessor; and, indeed, if you come to think of it, Governments are wise when they send out their tallest men to other countries.

Diplomats and men in the public eye should always be picked for their height. On that score the Fianna Fail Ministers shine. But, coming back to Mr. Cudahy, I think he has the most attractive face of any Minister America has yet sent us—attractive in its friendliness.

I noticed he was carrying a blackthorn, and remembered that Ulster produces the best blackthorns.

Early Tramcars

Your reference to the "bakers' tram" leaving the Pillar for Dalkey each morning is evidence (writes a correspondent) that you are unused to Dublin in the early hours. Actually, trams leave the Pillar at 6 a.m. for a number of termini. I have used one of them continuously for a month, and never known it to be crowded. These trams (continues my correspondent) seem to be used principally by Civic Guards, newspaper workers who have lingered on after press time, and men going to the few places of employment which open early—the railways and the gasworks are examples. Another who finds the 6 a.m. car useful is the man who has been "playing cards all night" and has not enough money left to hire a taxi. Between 7 and 8 a.m. the most impressive sight is the great number of cyclists. My correspondent counted two hundred passing in Pearse street in ten minutes. After 8 o'clock the city goes dead again until 9 a.m.

WEDDINGS

MR. J. A. NORMAN AND MISS ELIZABETH CHANCE

FROM OUR CORRESPONDENT.

LONDON, Wednesday.

The marriage took place in London this afternoon of Mr. John Anquetil Norman, of the Royal Horse Artillery, only son of the late Major Anquetil Norman and of Mrs. Norman, of Grève d'Azette, Jersey, and Miss Elizabeth Chance, third daughter of the late Sir Arthur Chance and of Lady Chance, of Nullamore, Milltown, County Dublin. Owing to illness Lady Chance was unable to be present at her daughter's wedding.

The ceremony took place in the Lady Chapel of Westminster Cathedral, and the Rev. E. Chadwick officiated.

The bride was given away by her step-brother, Mr. Norman Chance. She wore a gown of patterned white crêpe, with a short train from the skirt. The bodice had long sleeves and a square neckline, outlined with a narrow frill of plisse tulle, as also were the cuffs. The bodice was trimmed in front with a row of diamanté buttons. Her veil of white tulle was held in place by a tiara of frosted glass berries and leaves. Her bouquet was of stephanotis and white gardenias.

The bridesmaids were Miss Gillian Crimmins (niece of the bride), Miss Marjorie Chance (sister of the bride), and Miss Margot Brand. Their dresses were of white moire silk, made with long full skirts of ground-length, the bodices having short puffed sleeves. The little turned-down collars were finished with bows of the material, and they wore long sashes of deep flame-tinted velvet. Miss Crimmins wore a hair-ribbon of white silk, and the two older bridesmaids wore large bows of the white moire hairbands to match.

Mr. Sidney Cooper acted as best man.

A reception was held at the May Fair Hotel, where Mrs. R. G. Crimmins (sister of the bride) and Mrs. Michael Murphy (aunt of the bride) were joint hostesses.

The honeymoon will be spent in Wales and in Ireland.

THE GUESTS

Among the guests present were:—Mrs. Norman (mother of the bridegroom), Mr. Donald Chance, Mr. P. V. Chance, Mr. and Mrs. J. M. Norman, Mr. N. F. Chance, Mr. G. C. Norman, Mr. J. S. Norman, Mr. E. G. Aikenhead, Miss Aikenhead, Mr. Maurice Healy, K.C.; Miss D. Molony, and Mr. and Mrs. N. L. Foster.

MR. A. P. HASSLACHER AND MISS E. M. B. ROCHE

The marriage was solemnised at St. Aidan's Cathedral, Enniscorthy, yesterday, of Mr. Austin P. Hasslacher, youngest son of Mr. Charles and Mrs. Hasslacher, Kensington Park Gardens, London, and Elizabeth Mary Betty Roche, younger daughter of Mr. Henry J. Roche and Mrs. Roche, The Castle, Enniscorthy.

The marriage ceremony was performed by the Very Rev. J. Canon Rossiter, P.P., Ferns, assisted by the Rev. J. Codd, Adm., Enniscorthy; the Rev. P. Quaid, B.A., C.C.; the Rev. J. Wadding, C.C., and the Rev. P. Hutchinson, B.A., C.C., Enniscorthy.

The Nuptial Mass was celebrated by the Rev. J. Ransome, C.C., Enniscorthy.

During the Mass Mr. M. F. Fortune, Waterford, sang sacred music.

The bride was given away by her father, Mr. H. J. Roche. Her dress was of white satin, ornamented with old family lace. Her long tulle veil was held by a halo of orange blossoms. She carried a bouquet of white carnations, lily of the valley and maiden hair ferns.

There were five bridesmaids—Miss Josephine C. Roche (sister), Miss Berridge, Co. Galway; Miss Powys Smith, London; Miss Doreen Marks, London, and Miss Cecily Hughes, London—who wore plum-coloured lace over pale blue satin, with haloes of the same colours. They carried sheaves of pink gladioli.

The child attendants were the Misses Biddy and Joan Roche (nieces of the bride).

Dr. H. J. Roche, The Castle, Enniscorthy (brother of the bride), acted as best man, and the ushers were Mr. G. P. Roche, Mr. A. K. S. Roche, Mr. T. F. Roche (brothers of the bride), Mr. A. J. Hasslacher (brother of the groom), Mr. A. H. Reynolds (Portugal), the Hon. Hubert Ffrench (London), Mr. Hubert Gallwey (Waterford), and Mr. John Ryan (Dublin).

At the entry of the bride Miss Kathleen Grattan-Flood, cathedral organist, played the Bridal March from "Lohengrin," and after the ceremony she played Mendelssohn's Wedding March.

Over 150 guests attended the reception given at the Castle by the bride's mother.

The honeymoon is being spent in Austria.

THE GUESTS

Among the guests were Mr. and Mrs. C. Hasslacher (parents of the bridegroom), Mr. and Mrs. J. J. de Bromhead, Miss Belle Herries, Captain and Mrs. Bradish, Mr. and Mrs. Grattan Bellew, Mr. J. J. Bolger and Mrs. Bolger, Mrs. Cazalet, Mr. F. P. Roche, Mr. and Mrs. R. Fairfax Chromeley, General and Mrs. Doran, Mr and Mrs. Dowse, Colonel and Mrs. Gibbons and family, Miss Howlett, Captain Harvey, Anna Frances Lady Esmonde, Sir R. and Lady Paul, Miss Paul, Mrs. J. M. Roche and family, Mr. and Mrs. P. J. Roche and family, the Rev. Canon Rossiter, P.P., V.F.; Lieutenant-Commander C. J. Skrine, M.F.H.; the Rev. J. Wadding, Dom. Hubert Stephenson, O.S.B.; Mrs. and Miss Edith O'Donovan, Mr. and Mrs. G. V. Maher, Mrs. O'Flaherty and family, Colonel F. Ryan, and Mrs. J. M. Ryan.

Bouquets supplied by Watson's, florists, 31 Nassau street and Killiney Nurseries.

MR. W. LEWIS AND MISS LORNA CARTER

At the Church of the Holy Trinity, Rathmines, Dublin, yesterday, the wedding took place of Mr. William G. Lewis, son of Mr. J. Lewis and the late Mrs. Lewis, of Kilmore, Co. Carlow, and Miss Lorna Carter, elder daughter of Mr. A. C. Carter and the late Mrs. Carter of Castle Hill, Ballycommon, King's County.

The Service was conducted by the Rev. R. G. Perdue.

The bride, who was given away by her father, wore a mauve satin gown, made with a train, and also a juliet cap to match. She carried a bouquet of shell pink roses.

There were two bridesmaids—Miss F. Cobbe and Miss Nuala Carter (sister of the bride). The first-named wore a violet-coloured dress, with a hat to match, while Miss Carter's dress was of shell pink satin, worn with a wreath of leaves of the same shade. Their bouquets were of pink and mauve sweet pea

Mr. Charles T. A. Carter (brother of the bride) acted as best man.

After the ceremony a reception was held at Feighcullen, Charleston road, Rathmines, and during the afternoon Mr. and Mrs. Lewis left for their honeymoon.

MR. W. P. DEMPSEY AND MISS INA MURRAY

The wedding took place early yesterday morning at the Star of the Sea Church, Sandymount, Dublin, of Mr. William Peter Dempsey, son of Mrs. Dempsey and the late Mr. Edward Dempsey, of Clan Maliere House, Carbury, Co. Kildare, and Miss Ina Murray, daughter of Mrs. Murray and the late Mr. Edward P. Murray, of St. Margaret's, Merlyn Park, Ballsbridge, Dublin.

The ceremony was conducted by Monsignor Cummins, of Roscommon, who was assisted by the Rev. Father Ryan, P.P., Sandymount.

The bride, who was given away by her brother, Mr. Aidan Murray, wore a stone-coloured ensemble trimmed with fox fur, and also a small hat to match.

There was one bridesmaid, Miss Rosaleen Healy, who wore a bois de rose cloqué dress.

Mr. Martin Casey acted as best man.

After the ceremony a reception was held at the Salthill Hotel, Monkstown, by the bride's mother, and later Mr. and Mrs. Dempsey left for the Continent.

Wedding trousseau supplied by W. Leon, 24 Grafton street.

CONFERENCE ON FAITH AND ORDER

NEARING CLOSING SESSION

THE CONTINUATION COMMITTEE

FROM OUR OWN CORRESPONDENT.

EDINBURGH, Tuesday Evening.

THE Conference continued to-day the detailed consideration of the final report. In the morning session the chief subject of discussion was the report of the second section dealing with the "Church and the Word of God."

Several speeches were made on an amendment designed to meet objections to the original text, which had been put forward by the Archbishop of Dublin. His Grace was dissatisfied with the words in which the Conference was asked to acknowledge the doctrine of the Incarnation. The words in the text were: "In the fulness of time the Word of God was manifested in Christ Our Lord." After a long discussion, the words "Eternal Son of God" were inserted immediately after "Word."

The Conference is not at its best in dealing with a point of this kind, which could have been rectified by the committee earlier in the week when the final draft was prepared.

Most of the delegates were very much pleased when the Archbishop's point was conceded, for all agreed that a vital issue was involved.

The Conference was asked at the close of the morning session to elect a Continuation Committee, which will be responsible for the immediate future of the Faith and Order Movement. Ireland is well represented on the committee, for among those elected or co-opted to-day are the Archbishop of Dublin, the Bishop of Down and Professor Hartford (Church of Ireland); the Rev. J. S. Rutherford (Presbyterian Church in Ireland), the Rev. Alexander McCrea (Methodist Church in Ireland), and Professor J. T. Wigham (Society of Friends).

In the afternoon session, the last meeting to discuss the report, little of general interest happened.

In section three, where the subject is "The Ministry and Sacraments," progress towards unity is not great. There is, in connection with the subject of the ministry, a slight advance on Lausanne. The whole section suffers from the number of footnotes and explanations designed to express the specific beliefs of particular Churches; its chief value seems to be that it indicates the subject which must be most carefully studied in the next ten years.

HOPEFUL FEATURES

Still there are hopeful features in this section; for example, the description of the Eucharist, to which all the representatives gave assent: "We all believe that Christ is truly present in the Eucharist, though as to how that Presence is manifested and realised we may differ. Every precise definition of the Presence is bound to be a limiting thing, and the attempt to formulate such definitions and to impose them on the Church has itself been the cause of disunity in the past. The important thing is that we should celebrate the Eucharist with the unfailing use of bread and wine and of prayer, and of the words of "institution and with agreement as to its essential and spiritual meaning."

There was very little controversy over the sections dealing with the Sacraments, but when delegates came to discuss those dealing with the ministry so many points were raised that the President announced that an extra evening meeting would be held in order to complete the report.

To-morrow the Conference will meet to draw up and publish an "affirmation of union in allegiance to Our Lord Jesus Christ in view of the world situation."

Immediately after this meeting delegates will go to St. Giles's Cathedral, where the Conference will end, as it began, with a great united Service of prayer and thanksgiving.

MR. C. MAGEE AND MISS N. DONNELLY

At Newry Cathedral yesterday the wedding was solemnised, with Nuptial Mass, of Mr. Cieran Magee, B.Comm., A.C.A., son of Mr. and Mrs. James Magee, London, and Miss Nora Donnelly, youngest daughter of Mr. Eamonn Donnelly and Mrs. Donnelly, "Tighe Mhuire," Newry.

The Rev. J. P. Burke, C.C., Newry, was the officiating priest.

The bridesmaid was Miss Lily Kinsella, Dublin, and the bridegroom was attended by his brother, Mr. O. Magee.

The bride, who was given away by her father, wore a hyacinth blue *ensemble*, and in her corsage wore sweet pea and roses. Her going-away dress consisted of a rust tailor-made suit of Foxford tweed, with hat and shoes to tone.

After the ceremony there was a reception at the home of the bride's parents.

The honeymoon is being spent in Donegal.

DOUBLE WEDDING AT CLIFDEN

There was a double wedding at Clifden yesterday morning, when Miss Maire Lyden, B.A., B.Comm., H.Dip., was married to Mr. Gerard McMahon, B.A., B.Comm., Customs and Excise, Galway, and her sister, Miss Kathleen Lyden, was married to Mr. William J. Lavelle, Clifden. The brides are the daughters of Mrs. Lyden O'Neill and the late Mr. John M. Lyden, Clifden.

The Misses Eileen and Emma Lyden (sisters of the brides) were the bridesmaids, and Mr. Liam Burke, Galway, and Mr. J. J. Cronin acted as best men.

The Very Rev. Canon Patterson, P.P., celebrated Nuptial Mass and officiated at the wedding ceremonies.

After a reception in the Railway Hotel, Clifden, Mr. and Mrs. McMahon left for a honeymoon tour of Ireland, while Mr. and Mrs. Lavelle left for Paris, via London.

REVENUE COMMISSIONER APPOINTED

The Executive Council of the Irish Free State have appointed Mr. T. Cleary, an Assistant Secretary in the Revenue Department, Dublin Castle, to the vacancy on the Revenue Board caused by the recent sudden death of Mr. M. V. Nolan, Revenue Commissioner

Mr. Cleary was educated at Rockwell College, and is fifty-five years of age. He is a well-known golfer. He has, as representative of the Revenue Department, accompanied during the past five years the more important Free State Government trade delegations to Great Britain, France and Germany. As an Assistant Secretary in the Revenue Department he has been prominently identified with the administrative work connected with the imposition of tariffs and duties on Saorstat imports.

The post of Revenue Commissioner carries a salary of £1,000 to £1,200 a year, plus cost of living bonus.

ON THE WIRELESS

Daily Programme Review

RADIO ATHLONE: "My Favourite Song," 8.30.

B.B.C. NATIONAL: Massed Bands, 8.45.

LONDON REGIONAL: Shows from the Sea side, 6.40.

NORTH REGIONAL: Cinema Organ, 6.0.

WEST REGIONAL: Concert Party, 8.0.

NORTHERN IRELAND: "Stop Dancing," 9.35.

RADIO PARIS: Opera—"Otello" (Verdi), 8.15.

VIENNA: Operetta Music, 7.25.

PREVIOUS broadcasts presented by Captain J. F. Lucey, from Radio Athlone have been very successful and entertaining. To-night at 8.30 he will present another programme, which he calls "My Favourite Song"—the title speaks for itself.

A broadcasting version of George Eliot's famous novel, "The Mill on the Floss," will be on the air this evening at 7.30 from B.B.C. National, and to-morrow in the London Regional and Midland programmes at 9.15. The action of the play takes place during the latter part of the last century at Dovecote Mill, on the River Floss and in the neighbouring town of St. Ogg's. The production is by Owen Reed.

The bands of His Majesty's Irish Guards, His Majesty's Welsh Guards, and His Majesty's Royal Air Force combine to broadcast a concert in connection with the Shrewsbury Musical and Floral Fête. The programme will be relayed from the Quarry, Shrewsbury by B.B.C. National at 8.45.

Concert parties provide amusing listening, and London Regional at 6.40 present "Twinkle," seventh in the series of "Shows from the Seaside." The show will be introduced by Harry S. Pepper and Davy Burnaby from the Pier Pavilion, Eastbourne. The relay of the Promenade Concert from this station at 8 o'clock takes the form of a Haydn-Mozart programme.

Horace Finch will be heard at the organ of the Empress Ballroom, Blackpool, for half-an-hour in the North Regional programme at 6 o'clock. Another enjoyable half-hour may be spent listening to Henry Reed and his Viennese Orchestra from this station at 9.35. This orchestra of twelve is composed of members of theatre orchestras and Hallé players. Besides music from Vienna and the latest Continental tunes, the orchestra frequently plays Spanish and Italian music.

"The Show Supreme" is the name of a concert party, who will broadcast from the Pavilion, Teignmouth at 8 o'clock, from West Regional.

James Moody, famous for his "Stop Dancing" programmes of popular music arranged for the ear rather than the feet, presents another one to-night from Northern Ireland at 9.35. At 9.45 from Scottish Regional Harry Kemp presents an excerpt from his summer show at Barrfields Pavilion, Largs.

Bruno Walter conducts the Vienna Philharmonic and State Opera Chorus in a performance of Mozart's opera, "Figaro," to be relayed from Salzburg by Beromünster and Strasbourg at 7.5. It is a pity that this opera should clash with a performance of Verdi's "Otello," to be conducted by Sir Thomas Beecham from the Casino, Vichy, and broadcast by Radio Paris at 8.15.

SMALL-BORE RIFLE SHOOTING

MATCHES BETWEEN IRISH AND SCOTS

Since returning to Scotland the Scottish small-bore team members have been loud in their praise of the great hospitality extended to them during their recent visit to the Irish capital for their shoulder-to-shoulder match with the City of Dublin. The visit of so many crack shots showed what a splendid sport small-bore shooting is, and what a high standard of marksmanship members can attain. The inclusion of four women and the fine shooting of Mrs. N. K. Cowie, who dropped only two points out of a possible 400, demonstrated the excellence of the sport for the sex. Miss Ferguson, of the Scottish side, made an eloquent appeal to the women of the Irish Free State to take up the sport and enjoy it, as, she assured her audience, she and all the Scottish women enjoyed it.

POSTAL MATCHES

Several postal matches with Scottish clubs have been arranged by the Wexford Club in an endeavour to give the members match experience. Against Guardbridge, holders of the British Team Championship, Wexford made a good show, losing by four points in a high scoring match. Results:—

STAIRS WERE A TERROR TO HER

Rheumatism Made Her Weak and Helpless

Now Walks With Ease

Afraid of going upstairs. Unable to rise from her chair. Requiring assistance at every turn. That was the state of this woman before she began taking Kruschen Salts. In this letter she describes how she overcame her troubles:—

"Two years ago I was suffering from severe rheumatism in my knees and ankles. If I sat down I could not get up again, and going up and down stairs was very painful and difficult. I tried many remedies without success.

"At last I determined to give Kruschen a good trial. I took nearly a teaspoonful of Kruschen Salts every morning in hot water and soon derived much benefit from it. I can walk without pain, stairs are no longer a terror, and I am better in every way. I have never stopped my dose of Kruschen since I started two years ago. I feel it keeps me well."—C.E.C.

The pains and stiffness of rheumatism are caused by deposits of needle-pointed uric acid crystals in the muscles and joints. The six salts in Kruschen stimulate your liver and kidneys to healthy, regular action; enable them to get rid of the excess uric acid which is the cause of all your suffering. When poisonous uric acid goes—with it the deposits of needle-pointed crystals—there's no doubt about those aches and pains going too!

You can get Kruschen Salts at all Chemists at 1/9 per bottle.

THE AMERICAN MARKETS

TRADERS HESITANT, DESPITE CHEERFUL TONE

REUTER'S TELEGRAMS.

NEW YORK, Wednesday.

While Wall Street was cheerful enough to-day, traders were not disposed to translate their convictions into buying orders, and the Stock market in consequence was very quiet with movements narrow. The turnover totalled 700,000 shares.

Quotations drifted lower in the late dealings with the failure of the other groups to respond to the earlier firmness of the Steels and Coppers a discouraging factor. The close was easy, with losses ranging to a point general throughout. Larger declines were registered by Goodrich, Eastman Kodak, Atchison Topeka, U.S. Rubber, Crucible Steel and Union Pacific.

Sterling exchange opened ⅛c. up at 4.99 and improved to 4.99⅜ during the morning. The rate further advanced to 4.99 7/16 in the afternoon, but finally eased slightly and closed ⅛c. higher—compared with the previous close—at 4.99¼.

Silver was unchanged at 44¾c.

CONGRATULATIONS TO NEW BISHOP

DROGHEDA CORPORATION TRIBUTE

FROM OUR CORRESPONDENT.

DROGHEDA, Wednesday.

Drogheda Corporation, at a special meeting held last night, passed a resolution congratulating Archdeacon Lyons on the honour conferred on him by His Holiness the Pope by appointing him as Lord Bishop to the See of Kilmore.

Alderman L. J. Walsh, T.D., Mayor of Drogheda, who proposed the resolution, said that it was a matter of great pride to the citizens of Drogheda that Archdeacon Lyons had been the recipient of so high an honour, so well merited. Within the past three years the Archdeacon had put his whole soul and all his great energy and organising ability into the noble work for the canonisation of our martyred Primate, Blessed Oliver Plunket, and thereby he brought hundreds of thousands of the faithful from all over Ireland on pilgrimages to the Shrine of Blessed Oliver in St. Peter's, Drogheda.

Councillor W. P. Allen, seconding, said that Archdeacon Lyons was a Churchman whose name was a household word the world over, not alone because of his work and labours in promulgating Christian and Catholic doctrines at home and abroad, but because he was a man of the world, widely and deeply read, whose knowledge of the art, literature, and general culture of the countries of the world was astounding.

It was decided to convene a meeting of the citizens for the purpose of setting up a committee to consider a presentation to the Bishop-elect.

MAN DROWNED—BODY WASHED TO SEA

UNUSUAL SLIGO OCCURRENCE

FROM OUR CORRESPONDENT.

SLIGO, Wednesday.

On being notified yesterday afternoon that the body of James Carr (43), farmer, unmarried, of Belville, Dromore West, who was drowned at Dunmadden strand last Sunday week, had been recovered from the sea, Dr. T. H. Rouse, Coroner, Sligo, fixed an inquest for last evening at 6.30, but on arrival at the spot indicated, near Aughris Head, three miles from the scene of the drowning, it was found that the body had agaain disappeared. Civic Guards and civilians, in motor and row-boats, after some hours succeeded in locating it, and brought it ashore.

Sergeant John Meehan, Dromore West, who was bathing with the deceased man when he was lost, stated at the inquest that when he saw Carr about forty yards farther out he shouted to him that the sea was very rough. Witness went to a ledge of rock extending into the sea, but before he came level with where Carr was he was swept 35 yards further out. Waves broke over Carr, and he disappeared. He did not make any signals of distress.

Robert Keaveney, who was one of a crowd on the shore that witnessed the occurrence, said there was no time to go to Carr's assistance.

A verdict of accidental death was recorded.

PASSED 'PLANE AS SAFE

KILLED WHEN CHOSEN AS PASSENGER

By a coincidence, the pilot of the R.A.F. machine which crashed on Tuesday at Donna Nook bombing range, Lincs., had chosen as his passenger the rigger responsible for the examination of the machine earlier in the day.

This was stated at the inquest at North Cotes, Lincs., yesterday, on the pilot, Lieut. John Alan Goldsmith, R.N., and Aircraftman George Edward Clarke, both of whom were killed.

Evidence was given that the pilot was engaged in bombing practice, and that when diving from 5,000 feet a wing of the machine seemed to fall off. Both men were killed instantly when the machine fell.

A verdict of accidental death was returned.

SUCCESSFUL NENAGH SHOW

A THOUSAND ENTRIES

DAIRY CATTLE A FINE LOT

FROM OUR REPORTER.

NENAGH, Wednesday.

THIS year's Nenagh Show, held here to-day, was one of the best yet held in the support that it received and in the general standard of the exhibits. With over a thousand entries for all classes, last year's total was largely exceeded, while the attendance figures, despite the rather unsettled weather in the morning, also showed a considerable advance on the previous year's event.

A notable feature of the show was the high quality of the cattle, a fact which demonstrated that the exhibitors nowadays are more anxious to eliminate the rougher types of cattle and are putting forward only animals of a general show standard. Mr. M. O'Donnell's bull which won the Shorthorn Association's silver medal was an outstanding animal, while all the Aberdeen-Angus and Hereford cattle were an exceptionally good lot. The judges were pleased with the dairy cows, which were of a high uniform quality. The heifer classes were useful.

The four-year-old hunters were outstanding and yearling fillies were particularly good, but the two-year-olds were still better. The Irish draught horses and mares were, if possible, an improvement on those entered for last year's event, while the brood mares and foals in the hunter classes were of a high standard also.

The local Committee of Agriculture had an interesting educational display in the use of trees and shrubs for shelter and ornament.

LIFE AND DEATH STRUGGLE

IRISHMAN WRESTLES WITH LEOPARD

A life-and-death "wrestling match" with a man-eating leopard was one of the adventures of a well-known Johannesburg amateur wrestler, Terence McCarthy, during a hunting expedition he has just concluded. He had a second remarkable escape from death during the trip, when he survived a bite by a giant black mamba snake.

Twenty-six scars all over his body tell of his fight with the leopard. The hunting party was stalking game on the banks of the Limpopo when the leopard appeared. The hunting dogs immediately attacked it. The leopard soon began to get the better of them, but the hunters could not shoot without wounding the dogs.

McCarthy, who is aged twenty-two, flung down his gun and leaped to the rescue of the dogs. For several minutes he struggled with the leopard, and, although torn and bleeding, held on grimly to its throat.

Edging near, one of the other hunters shot at the leopard. Still in MacCarthy's grip, the beast rolled over dead.

A few days later McCarthy was bitten by a black mamba as he was passing under a tree. He did not see the huge snake swing down from the tree.

Another member of the party pulled him away, but it was too late. The snake's fangs had grazed the young hunter's hands. The poison at once began to take effect.

The snake-bite outfit that the party carried with it contained only one dose of serum. That last dose saved McCarthy's life.

L.M.S. SHIPMENTS OF HORSES

DUBLIN SHOW TRAFFIC

The London, Midland and Scottish Railway Company reports that the number of horses shipped by the company's steamers from North Wall to Holyhead during the period of, and following, the Royal Dublin Society's Horse Show this year was 604. In order to accommodate that number it was found necessary to provide three special steamers in addition to the regular daily cargo and live-stock services. The numbers shown include the British, United States, Belgian, Dutch, French and Swiss teams which took part in the International jumping contests at the Horse Show, and also the Irish Free State equitation team *en route* for Germany.

LEFT £187,000

Mr. Howard Rundell Guinness, of Clandon Regis, West Clandon, Surrey, and 53 Cornhill, formerly of Dublin, a banker and senior partner in the banking firm of Guinness, Mahon and Co., and a director of Erin Trust, who died on May 9, left £187,891.

Envoy L. Lowe, a Newcastle-on-Tyne Salvation Army veteran, yesterday celebrated his ninety-second birthday by taking an aeroplane flight. "I am just practising for heaven," he said before taking off. His ambition now is to fly to New Zealand, where he has friends. He has been invited to do so on his hundredth birthday.

BERNE MOTOR RACE

KEEN ANGLO-ITALIAN DUEL EXPECTED

FROM REUTER'S CORRESPONDENT.

BERNE, Wednesday.

Driven by her finest drivers, Great Britain's most successful racing cars—the E.R.A.'s—will meet stern opposition from Italian Maseratis in the Prix de Berne, to be run at Bremgarten on Sunday.

Raymond Mays and Arthur Dobson will drive the official E.R.A.'s, and other British competitors who have entered cars from the same stable are Prince Bira-bongse, of Siam (who races under the name of "B.Bira"), C. E. C. Martin, and R. E. Tongue. They will be challenged by their countrymen, T. P. Chomondley, Tapper Robin Hanson, and T. P. Wakefield in Maseratis. These drivers, together with seven Italians also in Maseratis, will give the British cars one of their hardest fights yet.

One woman is taking part in the race, in which there are 34 competitors. She is Mme. Rose Itier, and she will drive a Bugatti.

STRANDED TRAWLER INQUIRY

"SPLENDID SEAMANSHIP" AFTER ACCIDENT

The Board of Trade inquiry into the stranding of the Hull steam trawler, Bayflower, off the Caithness coast on June 21st, was concluded at Hull yesterday, and the findings of the Court will be announced to-morrow.

Dr. T. C. Jackson, for the owners and underwriters, said:—"Whatever may be the cause of the laxity in navigation; whether it was over-confidence or whether it was the close shaving of Duncansby Head, or both, this going at full speed through dense fog is absolutely unpardonable, from a navigation point of view. The skipper had not taken sufficient care in ascertaining his position at the point from which he set his course, which resulted in his going ashore. It is essential in navigation to get the point of departure well and truly fixed. Once it is conceded that he did not ascertain his position with sufficient accuracy it is easy to understand how he came to go ashore some miles south of Duncansby Head."

Mr. H. L. Saxelbye, for the Board of Trade, said that they could only come to the conclusion that the skipper had no one to thank but himself for the position in which he found himself.

Mr. C. W. Longaster, for Skipper Thorderson, stated that the skipper did everything possible in the circumstances. Not hearing any whistle or foghorn he assumed that he had a clear sea. He displayed splendid seamanship and common-sense in getting the vessel safely off the coast and back to port.

FATAL GLIDER ACCIDENT

CONTROLS FOUND REVERSED

The jury, which found that the controls of the machine had been reversed, returned a verdict of accidental death last night, at the Thirsk, Yorkshire, inquest on Eric Maule, the twenty-five years old Felixstowe optician, who fell to his death in a glider at Sutton Bank on Monday.

The jury could not say how or when the controls were reversed, and recommended that when gliding pupils assisted in making alterations to gliders in the absence of instructors the machine should not be used until it was inspected.

Mr. Rex F. Stedman, an instructor of the Yorkshire Gliding Club, said that when examined the machine was found to have reversed controls. These would naturally result in the accident as it happened.

It was stated that Maule, an aeroplane pilot, was making his first flight in a glider.

The Home Office announces that the King has approved a recommendation of the Home Secretary that Mr. David Davies, K.C., be appointed Recorder of Wolverhampton, to succeed Mr. F. J. Wrottesley, K.C.

SCOTSMAN WHO LOST HIS LODGINGS

Mr. John MacFarland, the Scotsman who mislaid the address of his boarding-house in Hove and reported himself to the police as "lost," has been extricated from his predicament by a friend, who got into touch with the Constabulary.

Mr. MacFarland, who is eighty years of age, is now enjoying his first holiday out of Scotland at the boarding-house that he could not find.

OBITUARY

MR. GEORGE SMITH

The death took place at Bowes Park, London, on Tuesday last, of Mr. George Smith, aged eighty-four, who for twenty years held the position of Chief of the Belfast Fire Brigade. Mr. Smith had been Divisional Superintendent in the London Fire Brigade. He succeeded Mr. George W. Parker in Belfast in 1899, when Mr. Parker was appointed as chief officer of the Manchester Brigade. Mr. Smith introduced Belfast's first motor fire engine, and it was under his control that several sub-stations were established.

VISCOUNT CRAIGAVON

HOLIDAY AT DONAGHADEE

FROM OUR CORRESPONDENT.

BELFAST, Wednesday.

The health of Viscount Craigavon, Prime Minister of Northern Ireland, which recently caused some anxiety, continues to show improvement. Yesterday Viscount Craigavon, accompanied by Lady Craigavon, left Stormont Castle for Donaghadee, where he will spend the next few weeks. The Prime Minister spent most of his boyhood days in Donaghadee and vicinity, and at the opening of a Young Farmers' Hall there recently he recalled many interesting reminiscences of persons and places in the district.

Santander and After

During the last few days there has been fairly heavy fighting in the North of Spain, where the insurgents seem to be making a determined effort to capture Santander. Since they took Bilbao there has been little military activity in the North; but, with the aid of strong detachments of tanks, a vigorous offensive was started at the beginning of the present week, and the Government reports admit that the insurgents have gained a certain amount of ground. Once Bilbao had gone, the fall of Santander became almost inevitable. Although the Basques and Asturians in the North continue to fight with notable gallantry, they are no real match for the highly-mechanised units of the Italian expeditionary force which are opposed to them, and nobody would be greatly surprised if the city should be captured before the end of the month. General Sandro Piazzoni, who is in command of the Italian Black Arrow Division, is more than anxious that his men shall be the first to enter Santander, as they were first to enter Bilbao. He is spurring them on by means of flamboyant exhortations, which would give the impression that nobody else but Italians was fighting in Northern Spain. From the military point of view, Santander has little importance, although, from the point of view of General Franco's prestige, its capture undoubtedly would be very useful. The general situation in Spain seems to have become more or less static. It soon will be a year now since it was announced, even in Dublin, that General Franco's forces had entered the suburbs of Madrid, and General Queipo de Llano boasted nightly from the Seville Broadcasting Station that the capital would be completely in insurgent hands within a few days. Since that time desperate efforts have been made to cut the road between Madrid and Valencia; but for some remarkable reason the position remains almost precisely what it was last September. Malaga and Bilbao have fallen in the meanwhile; but Madrid remains intact, and the end of the war seems to be as far off as ever it was.

It is perfectly certain now that General Franco cannot win the war in Spain without the continued, and increased, aid of foreign auxiliaries. According to some military experts, Signor Mussolini will need to send at least 100,000 fresh troops to the Peninsula to ensure his *protégé's* success. General Franco admittedly holds the greater portion of Spain in his control, but it is highly doubtful that he can count on the loyalty of the population. During the last twelve months there have been many changes in public opinion, not only in Spain itself, but throughout Europe. At the beginning there was much sympathy with General Franco, in spite of his employment of Moorish troops; and it is quite possible that the insurgents might have taken Madrid and won the war in a couple of months if the Germans and Italians had not intervened. What would have happened in our own country during the civil war of 1922 if detachments of Spaniards and Germans had appeared on one side or the other, if they had been billeted on Irish towns, and had taken control of the military situation? Surely the whole civilian population, whatever its sympathies, would have united in opposition to the intruders. There is small doubt that the foreign troops in Spain have incurred the wrath of a majority of the people. When that great Spaniard, Unamuno, was on his death bed, having espoused General Franco's cause, he declared that his heart had been broken by the sight of German soldiery in the streets of his native town, and he reaffirmed his faith in the Republican movement just before he died. Now most of the Germans have disappeared, although they left a sufficient number of airmen behind them to wipe out Guernica and Durango, but the Italians remain in large numbers, and are reported to be exceedingly unpopular among the Spanish people. Every Spaniard knows that, if Signor Mussolini sends a large enough number of Italian troops to ensure the Government's defeat, conditions will be imposed which will be galling to the pride of a highly-spirited race. He knows that Italy's motives are anything but altruistic, and that the victory of General Franco would be as barren as the victory of Pyrrhus.

The danger of an extension of the Spanish fighting is by no means over. So far as one can see at the moment, the Non-intervention Committee has come to the end of its tether, and, in spite of Mr. Anthony Eden's well-meaning efforts, there is no chance of the withdrawal of foreign volunteers from the Peninsula. General Franco's Diplomatic Cabinet is very definite on this point. It asserts that all the foreign troops in Spain are members of the Spanish Foreign Legion, that they have become *eo ipso* members of the Spanish army, and that, therefore, there can be no question of their withdrawal. Everybody knows that the Italians are fighting as a separate force, enlisted in Italy, and maintained in Spain by the Italian Government. They may be attached formally to the Foreign Legion; but the suggestion that they belong to it in the capacity of ordinary volunteers is just ludicrous. It is quite clear, however, that there will be no withdrawal of foreign troops until Italian policy demands such a move. The Non-intervention Committee may meet again in London. Mr. Eden or somebody else may produce a new formula to make its work effective; but nothing is easier than to temporise, as Count Grandi has proved on more than one occasion recently, and we are quite convinced that the Committee will be able to do nothing of the least value. The war in Spain will drag along, possibly for another year or even longer. Spain, like Ireland, has wonderful resilience. Her people seem to take civil strife almost as a matter of course, and, although the casualties have been extremely heavy among the civilian population, there does not seem as yet to be any evidence of serious war weariness. The chances of a clear-cut victory for either side are very remote. As in the case of the Carlist wars, the present struggle probably will fizzle out, leaving both parties more or less exhausted. The prospect is far from encouraging, but the alternative of a triumph either for Burgos or for Valencia is even less alluring. Such a triumph would increase the dangers of a general European war.

Town or Country?

Professor Daniel Corkery, speaking recently at a conference of university societies in Connemara, is reported as lamenting the failure of the universities to give a lead to the people in national culture. He considers that the failure is due to the stress laid on technical training in the modern university, whereby it becomes a sort of glorified vocational school, and neglects to foster the liberal arts. Country life and manners, he thinks, "could be a basis for culture," and the work of the universities would be to mould the rural culture into urban applications—to create within the towns centres of art, literature, music and manners which would be distinctive of our people. "The towns are allowed to react to foreign influence," he says. We are not among those who agree with all that Mr. Corkery writes; as a critic, we consider him somewhat narrowly provincial, and, as a story-writer, somewhat harshly modernist. Yet his is one of the most penetrating and sincere of minds, and he is at his best in the contrast which he draws between rural and urban ways in Ireland. The stranger who comes among us does not feel himself to be in a different land while he lodges in the hotels of the capital. All around him are the fashions, structures, colours, manners and accents of Hollywood. He might as well be in any Middle West American town or English industrial city. Unless somebody takes pity on him—and introduces him to the Abbey Theatre or the Gate, or takes him on a visit to certain cultivated circles—he sees and hears nothing to make him realise that Dublin is a city with a grand history and a soul of its own, like an English or Continental university centre. The country towns are equally unfortunate in absorption by the culture of Hollywood. With the progress of industrialism, the cheap and alien environment tends to grow, so that whatever is racy in the country towns stands in danger of utter eclipse. If we wish to convince our guest that Ireland has some character of her own, we send him from the towns to the countryside. Here, in truth, he recognises that he is in a land with a character—a land that repays a visit with a novel charm. Whether he visits the big country houses, with their early-rising, open-air inhabitants, their horses and dogs and guns and rods, or goes to the modest, lime-white little farmsteads, with their strong, grave-eyed and merry-tongued folk, he recognises something distinctive, something racy, something lovable. The easy hospitality, the gaiety, the virile tastes which are typical of rural Ireland, these are rooted in an old tradition which has captured generations of invaders; but we have yet to see whether it can capture the new invaders—the factories and country suburbs, the picture theatres, the modern Press and even the up-to-date universities.

Signs of the Times

Two recent happenings have almost dislocated the long arm of coincidence. In one case an Austrian Professor hired a furnished room in Vienna, paid for it in advance and then hired a taxi-cab to remove his belongings from his previous lodgings—only to find that he had completely forgotten the new address. In the other case a Scotsman booked holiday lodgings at Hove, in Sussex, planked his suit-case at the foot of the bed, hung his coat behind the door because of the heat and sauntered out in his shirt-sleeves—to discover some time later than he had not the foggiest idea of the whereabouts of the boarding house and had left the landlady's business card in the pocket of his coat behind the door. One is not surprised at the Professor. Every second day we read of professors doing things like putting their watches in saucepans to boil and holding eggs in their hands to time the process, or cutting a hole in the study door to admit the family cat and, at the same time, cutting a smaller one to admit her kittens. One has grown to expect that sort of thing from professors. A Scotsman is a different proposition: there will be a general feeling that the Caledonian stern and wild at Hove has let his country down. In the sequel, however, he seems to have run more or less true to form; for, having spent hours in fruitless exploration, he took himself and his problem to the police station, where the harassed seaside constabulary, presumably after applying the usual tests, found him a lodging for the night and told him to call round next morning, when they would let him know if any landlady had reported a boarder missing. The Professor, on the other hand, found a temporary shelter and put an advertisement in the papers, but so far without result. It is sad to reflect that the teaching of Sherlock Holmes has been wasted on these two men. The great detective, after a moment's thought, would have remembered that the maid who answered the door had two left feet and adenoids, that the landlady wore a wart on her nose and a toupee, that the ginger cat which was sunning itself in the front window had lost an ear in battle and that the house itself was half-way up a street beyond the Red Lion hostelry. Given those data the rest would have been quite simple, my dear Watson. It is obvious that something will have to be done about this regrettable state of affairs. We cannot have Scotsmen and Professors setting a bad example like this. Why, the time might come when Bray, for instance, might be filled of a summer's evening with hundreds of people milling around looking for the addresses they had lost and driving the Civic Guards crazy. Profound reflection suggests that the only way to prevent a recurrence of such incidents would be a revival of the signs which used to hang over doorways in the days before the populace learnt to read. A profusion of suitable signs immediately comes to mind—the Sign of the Loaded Table, the Sign of the Cheerful Company, the Sign of the Glad Hand, and so on. Of course, care would have to be taken that the signs were not ambiguous; it should not be possible, for example, to mistake the Glad Hand for the Clutching Hand or the Cheerful Company for the Unsuccessful Wake.

FROM "THE TIMES"

(*BY SPECIAL ARRANGEMENT.*)

THE WAR IN SPAIN

The Times observes editorially to-day:—In Spain there seems to be no sign of a decisive campaign or of a reconciliation between the combatants. For the moment fortune appears to be with General Franco, who, after the fighting last month, no doubt, felt that his position west of Madrid was assured. The capture of Santander would immensely strengthen his position, enabling him to divert forces from the Northern Front to Madrid and the East. In face of such a situation it would seem futile to speculate about the political future of Spain. Yet the two chief nationalist parties—the Falangists and Requetes—have recently issued statutes which would provide the basis of a new Constitution for Spain if General Franco could win the victory for which he has striven so long. The General himself would be the head of this curious system. Once a year, but more often if he chose, he would consult a council largely selected by himself. On the other side, the Parliaments of Valencia and Barcelona are to be called together. General Franco has been proclaimed "responsible only to God and to history." Such a mystical, medieval phrase can bring little comfort to the thousands of embittered Spaniards fighting for their different ideals of liberty and order, who are asked to choose for the future between a rather vague parliamentarianism, various brands of anarchism or socialism, and a new version of the divine right of dictators. That they go on fighting is an obstinate proof of the passions which have been aroused by the war.

While the burden of the Spanish situation on the British Navy is great, adds *The Times*, it has also been heavy for the British Diplomatic and Consular representatives in Spain. Yesterday Sir Henry Chilton, our Ambassador to Spain, left Hendaye for London. For nearly a year he has perforce worked outside Spain at an exceptionally delicate and difficult task, communicating at long range with two different Spanish authorities, one of them not recognised by the British Government. There was some anxiety a year ago when the British Ambassador left Spain for Hendaye. It was felt then that the British Embassy might exert a restraining influence on the excesses of the Government followers in Madrid and keep a close watch on British interests. But all that could be done was done by Mr. (now Sir) Ogilvie Forbes, the *Chargé d'Affaires*, in a position of great difficulty and danger. There was no neutral territory within Spain where Sir Henry Chilton could set up his staff; it would have been impossible to negotiate with one of the belligerents from the territory of the other. From Hendaye Sir Henry has been able to do much useful work. He returns from a country which is being morally and economically ruined by the struggle between religious, political, and racial hatreds, where the life of the people is being organised for war, where education is military training, where every man has to choose between Right and Left. There seems not the faintest suggestion that the conflict is drawing to its end.

WARRIORS OF FIRST CENTURY

THIRTY SKELETONS FOUND IN ENGLAND

Excavators at Maiden Castle, Dorchester, have uncovered the graves of about thirty warriors, who were probably killed in in defence of the great fortified earthworks there. Across the chest of one of the skeletons was a battle axe, and with some were the remains of food vessels and joints of mutton. One skeleton had an iron arrowhead deeply embedded in its spine and sword cuts were in several of the skulls.

Dr. Mortimer Wheeler, Keeper of the London Museum, said yesterday that in nearly every case provision was made for the "sustenance" of the dead, either in the form of food vessels or in the form of joints of mutton which, were in several cases buried in or close to the hands of the dead.

In date the burials approximate close to the time of the Roman conquest in the 1st century.

The uncovering of the newly-discovered western gateway of the original Maiden Castle is proceeding, and road metal and post holes are being brought to light. The discovery of the war cemetery is attracting thousands of visitors.

OLD BRITISH WAR HORSES

TO THE EDITOR OF THE IRISH TIMES.

SIR,—A number of your readers, in common with the writer of this letter, since reading the letter on the above subject in your columns lately, have been wondering how the horses taken abroad during the years 1914 to 1918, the years of the duration of the War, can have lived so long, especially when the terrible treatment and the appalling conditions mentioned by the writer of the letter are taken into consideration.

Some must be at least twenty-three years old, and, even under the best conditions, could not be at work now, though, no doubt, a few exceptions are to be heard of.

Truly, these animals must have been fed on some extraordinary rations, or else they must have been a very strong breed to start with. Horses at home, with care and attention, do not last like that. Thousands have been removed, but still it seems that there are thousands more to rescue.—Yours, etc.,

E. J. MORROW.

QUEEN MARY'S VISIT TO SANDRINGHAM

Queen Mary, who is staying at Sandringham, paid a private visit yesterday to Mr. and Mrs. John Cator, at Woodbastwick Hall, Norfolk. She motored the sixty miles from Sandringham to Woodbastwick, and was taken to a spot known as Broomhills where she admired the view over Salhouse Broads.

Queen Mary also called at the Woodbastwick Hospital and Child Welfare Centre and saw the V.A.D. nurses there.

LONDON LETTER

WAR IN CHINA AND SPAIN

59 FLEET STREET, LONDON,
WEDNESDAY NIGHT.

THE position in Shanghai remains the same, no lull in the fighting having been reported. Both sides claim advantages over the other, but neither would appear to have recorded any definite success from the continuous clash of arms which has been in progress. The evacuation of women and children continues. More British and American refugees were embarked to-day, and to-night the first batch from the French Concessions are due to board two French liners, which are awaiting them outside the harbour. Authoritative denials were made in London that all British nationals are to be evacuated, and that British commercial enterprises in the city will be shut down during the war. After all women and children have been placed in safety, any Briton who so desired can be evacuated, but, apparently, the great bulk of them prefer to stay to watch their business interests.

Turning to the theatre of war nearer home, operations over a wide front before Santander have been resumed, and General Franco's troops have had a series of successes, which, it is expected, will result in the early fall of Santander and the conquest of the whole of the Basque country. There is a rumour here that, alarmed at the insurgents' progress, the Soviet is coming to the aid of the Spanish Government by the shipment of huge supplies of guns and ammunition and other war material, from Black Sea ports to Valencia and Barcelona. The British Government's stern order to the Fleet to act in case of other British ships being attacked meets with general approval here.

British Army Manœuvres

Valuable lessons are being learnt from the mimic war which is being staged in East Anglia. Gathered together in that part of the country is the largest mechanised force that has been seen anywhere since the war. Mechanisation has proved two things. One is that the troops are fresh and ready for action at the end of a long day's trek, instead of being jaded by a long forced march. The other is that these long columns are too open to air attack. Many of the theories about the movement of a large mechanised force will have to be radically revised. Army experts who have been closely following the exercises are of the opinion that protection must be afforded by friendly 'planes to beat off any aerial enemy, and that further to ensure safety from the air there must be an alteration of pace on the roads and greater interval between vehicles, though they fully recognise that the latter would involve serious delay in reaching an objective-striking point. All these things will be discussed in Whitehall in due course, and plans made to give effect to the lessons which these military operations have afforded. A fully mechanised division at war strength would require about 4,000 vehicles of all kinds.

Rush of Recruits

Dépôts and recruiting offices have been besieged with inquiries concerning Mr. Hore Belisha's scheme for attracting recruits to the colours. The desired information has been given, orally and by post, and with good results. Recruiting is brisk, and over 1,500 reservists have notified record offices of their desire to rejoint the colours. Those political forces which have sought to decry joining any of the services ridicule the idea of a "career in the Army," and point out in pursuance of their propaganda that the career ends when a man is, say, 40, when the pension payable is meagre and begins at a handicapping age to find civil employment. The fact, however, is overlooked that at the end of his military service a soldier can be taught a trade at one or another of the Army vocational centres, which have done excellent work, though on far too small a scale. These establishments are now to be greatly increased and will be administered by the Ministry of Labour instead of the War Office. A noticeable feature about their success is the large proportion of trainees who find work immediately they leave the Army.

Improved Farming Prospects

Agriculturists are doing better, as the prices of their produce are rising. Improvements in wheat and barley prices are marked since last year. Cattle and sheep have much better markets, and pigs, even without the bacon scheme, are bringing in more money. Eggs and poultry were considerably dearer last June than in June, 1936. Potatoes fetch more, and the price of wool has risen considerably. Home farmers, however, are not getting the full benefit of the increased price of food. Despite the talk of land falling out of cultivation and of stock being reduced, there are a million more pigs in Britain than there were ten years ago, 500,000 more cattle and a million more sheep. Fowls show an increase over the same period of about 150 per cent.

Tax Evasion

Treasury and Inland Revenue officials have inaugurated a new and more intensive campaign against tax evaders. Successive Finance Acts have sealed most of the holes of escape. Many devices have been applied to cheat the revenue in respect of income tax and death duties, and a new method has been revealed in connection with surtax. This latest method of evasion is the formation of accumulating trusts by which surtax payers can reduce their liability, and the authorities are on the *qui vive* to detect operations in that direction. If their vigilance proves successful, immediate legislation will be introduced to deal with the offenders, and it will carry the added sting of being retrospective. Frauds are being perpetrated on the Continent by persons getting unemployed to sign blank tax exemption forms for a few pence, thus enabling them to recover taxation on bearer bonds of foreign and colonial securities. It is calculated that the loss to the Treasury arising out of evasions amounts to many millions per annum.

Radio Exhibition

It is expected that the attendance at the Radio Exhibition, to be held at Olympia later in the month, will reach a total of about a quarter of a million, which will exceed the previous record of 238,000 in 1934. The attendance last year was 202,000, but since then there has been a great increase in industrial prosperity, and it is known that many workers in all parts of the country have chosen their holidays to synchronise with the fixture. There will be five miles of stands containing apparatus valued at over £5,000,000, and business running into millions of pounds will be transacted. All the principal manufacturers are producing attractive new models for next year, the radio year starting from the exhibition, in the same way as new car models date from the Motor Show. All the new sets, except those at the cheapest prices, incorporate three wave-bands, which will enable the short-wave transmission from many parts of the world to be received, and sets will be judged largely on their efficiency on the short-wave transmissions.

THE KING OUT SHOOTING

The King, with a small party, was out shooting on the moors at Balmoral yesterday, in dull and showery weather.

The staff of the Duke and Duchess of Gloucester arrived at Birkhall yesterday, and the Duke and Duchess are expected before the end of the week.

SIX JAPANESE SHIPS SUNK

REPRISALS FEARED FOR SCUTTLING

SHANGHAI SUFFERS NEW BOMBARDMENT

ROYAL ULSTER RIFLES ARRIVE

THE Whangpoo River, Shanghai's great artery to the sea, is now doubly blocked as a result of the sinking of six Japanese steamers opposite the waterfront, says a Reuter Shanghai telegram. The steamers were on their way down river when they were held up by the barrage which the Chinese had made last week by sinking junks.

Chinese troops seized the steamers and set them adrift. They floated down stream until they formed part of the boom, and then all six were scuttled by the Chinese on board.

REPRISALS EXPECTED

Japanese reprisals are expected for this action. It is thought that Japanese may attempt to seize all Chinese shipping in the harbour. Numerous launches and other small craft are there, though all Chinese river and coastwise shipping went elsewhere at the beginning of the crisis.

A Japanese source gives the names of the sunken steamers as follows:—Rayuko Maru (9,419 tons), Nanyo Maru (3,605 tons), Choyo Maru (5,388 tons), Gakuyo Maru, Joyo Maru and Sezan Maru.

ITALIANS AID BRITISH

The 1st Battalion the Royal Ulster Rifles arrived yesterday from Hong Kong in the liner Empress of Asia. Large crowds of Chinese watched them land at the French Bund. The troops went in lorries to the building of the Public School for Girls in West Shanghai, where they are now quartered.

The Royal Ulster Rifles are to replace the men of the 2nd Battalion the Loyal Regiment on the western circumference of the defence area.

A detachment of fifty Italians, forming part of the defence force, are helping the British troops.

It is learned that thirty-three Japanese warships have now been counted at Woosung and in other parts of the Whangpoo River.

BOMB IN BRITISH SECTOR

Two hundred and fifty Danish, Swedish and Norwegian women were evacuated yesterday for Hong Kong.

The American flagship Augusta also came up river yesterday and moored ahead of H.M. destroyer Duncan, with her bows pointing towards the Japanese Consulate.

Once again yesterday Shanghai awoke early to the sound of heavy explosions as Japanese warships, moored in the river, shelled the Chinese lines, while Chinese artillery replied.

COUNTER-CLAIMS

Yesterday the Chinese claimed to have made a substantial advance in the Yangtsepoo district of North-Eastern Shanghai. They asserted that their troops are now only a mile from the waterfront.

They also claimed to have pressed back the Japanese in the Chapei sector. This area is mainly inhabited by Chinese, but the Japanese hold one section.

Japanese sources, on the other hand, declared that the Japanese landing party in Shanghai is holding its positions, although outnumbered ten to one by Chinese forces.

Brisk air activity accompanied the bombardment. Japanese aircraft went up to try and spot the Chinese gun positions on the Pootung side of the river, opposite the International Settlement. At the same time Japanese bombers were pounding the Chinese lines in several separated districts starting with the Lunghwa Aerodrome, to the south-west of Shanghai.

AIR RAIDS

The next objectives of the Japanese aircraft were the Chinese lines round Chapei and Kiangwan, north of Shanghai. For fifty minutes they dived and twisted in the air above them. They employed the same tactics as they used in bombing the railway junction on Tuesday. One by one they dived down dropping their missiles.

After they had finished there was silence over the city for a spell, the guns from the warships also being quiet. The Japanese squadrons reappeared, however, at twenty minutes past eight. This time they went farther afield, systematically bombing strategic points from Chapei up to Woosung.

The Japanese met with little opposition, and columns of smoke rising from a dozen points told of the effectiveness of their operations.

In the course of their raids the Japanese dropped three bombs on the Chenju Radio Station, in the western outskirts of Shanghai, through which China is linked to the rest of the world by telephone and radio.

Chinese guns at Kiangwan appeared to have made effective hits near the Japanese base in North-Eastern Shangahi, starting fires which were visible for miles around.

An assurance that Chinese troops will not enter the International Settlement, southward of Soochow Creek, as long as Japanese forces are not allowed to enter, has been given by Mr. Yui, the Chinese Mayor of Shanghai.

Mr. Yui told the Press Association that the Chinese Commander had given strict orders to his trops othat there should be no looting and no damage to foreign property.

The Mayor predicted that the Chinese troops would drive back the Japanese to their ships in less than a week.

NEUTRAL ZONE PLAN

Proposals for the creation of a neutral zone in Shanghai on the lines mentioned in reports from London will be rejected by the Chinese, the Press Association learns from reliable Chinese quarters.

The Chinese consider them impracticable, especially because of their conviction that the British and Americans occupying the zone would never use force in the event of a Japanese breach of its neutrality. The Chinese suggest that they might agree to re-establish the 1932 demilitarised zone, but only on condition that the Japanese forces withdraw completely from the Shanghai area.

It is authoritatively stated that the purported proposals have not been delivered to the Chinese and Japanese Governments, and have not even reached a concrete stage.

It is understood in Nanking, the Press Association learns, that Mr. Davidson, the British acting Consul-General in Shanghai, has been given a free hand to devise a plan to clear the entire Shanghai area of fighting, and to shorten the war if possible.

JAPAN'S TERMS FOR TRUCE

FIRM GUARANTEES SOUGHT

Well-informed circles in Tokyo declare that the Japanese Government sympathetically understands the British desire for preventing hostilities from speading in Shanghai, says Reuter. The Domei Agency says: Japan is as anxious as any other country to protect the lives and property of foreign residents in Shanghai, including the 32,000 Japanese.

It is pointed out, however, that there are over 100,000 Chinese troops, including 27,000 armed Chinese militiamen, now surrounding the International Settlement.

It is generally believed in well-informed quarters that Japan would not agree to simultaneous bilateral withdrawal of Chinese and Japanese forces from Shanghai on a mere oral third party guarantee that due pressure would be exerted to make the Chinese carry out their side of the withdrawal.

Full observance of the 1932 truce agreement is held here to be a *sine qua non* of any settlement. Any other plan shows merely the lack of due understanding of the realities of the Far East on the part of its proposers (says the Japanese Agency).

MORE BRITISH TROOPS

The 1st Battalion the Middlesex Regiment is being sent to Shanghai after a day's stay in Hong Kong, it was learned in Singapore last night.

The battalion will sail for Hong Kong to-morrow afternoon. For the journey from Hong Kong to Shanghai they will travel in a warship. Their arrival will bring the strength of British infantry in Shanghai up to four battalions, in addition to auxiliary units, the others being:—

The 2nd Battalion the Loyal Regiment (North Lancashire), already at Shanghai when the crisis arose.

The 2nd Battalion the Royal Welch Fusiliers—arrived on Monday from Hong Kong.

The 1st Battalion Royal Ulster Rifles—arrived yesterday from Hong Kong.

In addition, 120 Marines from H.M.S. Cumberland and Suffolk have been landed at Shanghai. Half a battalion of the 2nd Punjab Regiment are standing by in Malaya.

GERMAN AMBASSADOR

The German Ambassador, Herr von Dircksen, has returned to Tokyo, and has seen the Foreign Minister to seek information on the Shanghai situation.

Messages reaching Tokyo from the Chinese interior state that the Japanese are evacuating all their residents, including Consular officials, from Canton to Hong Kong.

The Japanese Consul at Foochow also has ordered all Japanese residents in that city, totalling 2,350, to return to Japan. Similar steps are reported to have been taken by the American authorities at Tsinan with regard to American nationals in the hinterland of Shantung.

SHANGHAI NEUTRAL ZONE PROPOSAL

Efforts being undertaken by the British, French and American Governments to exclude Shanghai from the war zone appear to be meeting with little success.

Reports last night indicated that both China and Japan would be likely to reject any plan for the withdrawal of their troops, unless definite assurances were given by the interested Powers that they would strictly enforce demilitarisation.

The Chiefs of the Army and Navy General Staffs, Their Imperial Highnesses, Prince Kanin and Prince Fushim, have had audiences of the Emperor, to whom they have reported regarding affairs under their supervision.

Japanese Press messages from Shanghai state that in the Chinese artillery bombardment yesterday morning many Japanese women and children embarking at the quayside wharf on to the Nagasaki Maru were killed and wounded.

MOONLIGHT RAID PANIC

WELCH FUSILIERS FIGHT FIRE

A telegram, dated Shanghai, Wednesday midnight, says:—Panic was caused in Chinese districts of the city to-night when two aeroplanes flew over in clear moonlight and dropped bombs. It was Shanghai's first night air raid. One incendiary bomb fell on the Telephone Exchange in the north station sector, which is within the British defence area. A party of the 2nd Battalion Royal Welch Fusiliers helped to fight the fire in the Exchange. The Fusiliers only to-day replaced the Russian Volunteers, who had been evacuated owing to the danger of the sector.

The raid started shortly after 9 p.m. About an hour earlier Japanese warships had opened up a bombardment lasting about fifteen minutes, during which four shells fell in Nantao and the remainder in Pootung.

Confusion as to the identity of the bomb-

VOLUNTEERS IN SPAIN

"NO WITHDRAWAL," SAYS FRANCO

INSURGENT ADVANCE MAINTAINED

FROM REUTER'S CORRESPONDENT.

SALAMANCA, Wednesday.

SPANISH insurgent leaders are not prepared to make any concession in regard to the withdrawal of "volunteers" in order to obtain recognition and belligerent rights.

This statement was made to the Press Association by General Franco's Diplomatic Cabinet—the insurgent "Foreign Office."

In discussing present and future problems in Spain the "Nationalist" Foreign Office takes the view that "belligerent rights are objectively due and cannot be subject to any conditions."

The withdrawal of volunteers, it was stated, constitutes "a technical question very difficult to resolve in practice," because volunteers on the "Nationalist" side are "legally enlisted from the Spanish Foreign Legion, which for seventeen years has been a regular and recognised unit of the Spanish Army."

On the other hand, "Nationalist" Spain doubts the good faith of Valencia "which cannot do without its International Brigade and technicians, many of whom have adopted Spanish names and passports."

GIBRALTAR

The position of the British Consul at Bilbao, pending recognition and the granting of belligerent rights, depends entirely on the principle of reciprocity.

"We are ready," it was stated, "to give British Consuls exactly the same consideration which the British Government gives our representatives in Britain."

Concerning the batteries overlooking Gibraltar, the spokesman recalled Viscount Cranborne's statement in the House of Commons on July 19, to the effect that the only guns commanding the fortress were inferior to those which could be trained on them, and, therefore, constituted no present menace.

The question of an agreement, or armistice, with the Valencia Government was dismissed on the grounds of the impossibility of coming to any agreement with people "who deny every principle on which the national tradition of Spain and Christian civilisation in Europe are based."

It was absolutely denied that Spain will make any territorial concessions to Italy or Germany after the war.

"Neither Germany nor Italy has asked or could ask for such concessions" the Press Association was told.

ITALIAN BRIGADE IN ACTION

H.M.S. Royal Oak, which arrived at St. Jean de Luz during the night, is leaving this evening for La Pallice, where she will hand over to H.M.S. Resolution, which is coming out from England (says a Reuter St. Jean de Luz telegram of yesterday's date).

H.M.S. Fearless also has arrived and joined the Foxhound in the bay. H.M.S. Keith, it is understood, with the crew of the Faulknor on board, will be arriving very shortly to take up her duties as flotilla leader.

From the Salamanca *communiqué* and various radio messages from Bilbao and Vittoria it would appear that the insurgent right wing yesterday pushed on beyond Corconte, 36 armoured cars advancing four miles to the north-west of the town, which is described as being a heap of smoking ruins.

The latest news received last evening from Bilbao radio claims that the triangle of mountainous country between Reinosa, Corconte and Virtes is entirely surrounded by the Italian column of the "Black Flame" Brigade.

The insurgent headquarters have been installed at Reinosa, and every effort is being made to get the important munitions factory there into working order. In the railway sidings of the town 135 ten-ton railway trucks, full of provisions and clothing for the troops, and munitions of all kinds, have fallen into the insurgents' hands.

MUSSOLINI REPORT

What is alleged to be a copy of minutes of the first meeting between the heads of the various Spanish Conservatives' parties and Signor Mussolini himself has been found in the archives of the Renovacion Espanola (Monarchist) Party at Valencia, says a Reuter Madrid telegram.

According to this document, signed by Lieutenant-General Emilio Herrera Don Rafael Olazabal and Don Antonio Giococchea, the interview took place in Rome on March 31st, 1934, Marshal Italo Balbo also being present.

The Duce is stated to have made minute inquiries into the political situation of Spain, and promised at three different moments to help a movement tending to overthrow the prevailing Spanish *régime*, and substitute it with a Regency preparing for a restoration of the monarchy.

The Duce was prepared, according to the document, to supply immediately 20,000 rifles, 20,000 hand grenades, 200 machine-guns, and 1,500,000 pesetas in cash, it being understood that this was only initial aid, and that further assistance would be forthcoming as and when found necessary.

It should be observed that at the time given in this Madrid message the Government in power in Spain was that of Alejandro Lerroux, the Radical, who had in his Cabinet such men as Martinez Barrios, Gil Robles and Salazar Alonso, all of them Right Wing politicians.

WRECKED MUSEUMS

MASTERPIECES IN CELLARS

The following messages from the Spanish Press Agency Correspondent at Madrid has been received by Reuter in London:—

Sir Frederick Kenyon, former Director of the British Museum, and Mr. S. G. Mann, keeper of the Wallace Collection, who arrived on Tuesday in Madrid, in the company of Señor Don Pablo de Azcarate, Spanish Ambassador in London, yesterday morning visited several museums which have been destroyed or damaged by bombs.

Among these were the museums of archæology and of anthropology and the Prado. Members of the Council for the Preservation of Works of Art showed the cellars where masterpieces which could not be removed are kept in safety.

Sir Frederick observed that all the public monuments in exposed parts of Madrid have been protected by brick walls and sand-bags.

SEARCH FOR MISSING SOVIET AIRMEN

FROM REUTER'S CORRESPONDENT.

MOSCOW, Wednesday.

The Soviet air ace, Slepnev, left Kazan to-day to take part in the search for the missing Soviet airman, Levanevsky, and his companions, who disappeared when on a flight from Moscow to the United States.

BORDER HOLD UP

Dundalk Men for Trial

ALLEGED THREATS

Police Describe Outrages

FROM OUR CORRESPONDENT.

DUNDALK, Wednesday.

A VIVID story of the hold-up on the Free State-Northern Ireland border on the morning of 28th July, the date of King George's visit, by a number of armed men, of a sergeant and constable of the R.U.C. and two Free State Customs men, followed by the burning of the Free State and British Customs huts, was told at Dundalk to-day, when three young men were charged before Acting District Justice Conroy. The men were: Gerry Halpenny, Byrne's row; Patrick Downey, O'Hanlon Park, and Sean O'Farrell, Hill street, all of Dundalk.

They were charged with conspiracy to maliciously damage and destroy the Customs hut at Carrickarnon. Halpenny and Farrell were further charged with having, at Carrickarnon on July 28th, with others unknown, maliciously set fire to the Customs hut, and also with being in possession of firearms with intent to endanger life or cause serious injury to property.

Downey was discharged, and Farrell and Halpenny were sent for trial.

The three accused men, with other prisoners, were taken to Dundalk under special escort in a covered motor wagon, which was driven into the rear courtyard, from which the public were excluded. A crowd in the street outside shouted greetings to the men and waved their hands.

How the men on the border were held up by a party of heavily armed men was related in evidence by Sergeant Ed. Smyth, R.U.C., Newry. He said that he was on Customs duty patrolling the border on the morning of 28th July, accompanied by Constable McDaniel, and about 1.40 a.m. they went to the Free State Customs hut and spoke to the officer there. He heard footsteps on the Dundalk side, and heard a voice order "Hands Up." He saw a party of seven men. He rushed into the hut, but the leader of the party rushed in ahead of him, and shouted "Hands Up" to the officers in the hut. He had a revolver, with which he covered the officers. This man, said the witness, was the accused man, Gerry Halpenny.

A MACHINE-GUN

Another man had what appeared to be a Thompson gun, with which he kept them covered. He had since identified this man as Sean O'Farrell. They were ordered to keep their hands up, and the leader of the party searched them. The seven men of the party had, in addition to the Thompson gun, two Service rifles and four revolvers. Having searched them, Halpenny gave orders to his party, and addressed them as follows: "Men, you know your orders; you know what you have got to do; failing to carry out these orders you know the consequences; carry on!"

Turning to Farrell, Halpenny told him to cover the men who were held up, adding: "If one of them makes the slightest move, don't hesitate to shoot, and shoot with effect; if you fail to carry out these orders, you know the consequences."

One of the party went into the Free State hut and three went to the Northern Ireland hut. The man in the Free State hut began to sprinkle it with oil, and then set it alight, Halpenny in the meantime breaking the windows with his revolver.

Witness next saw the Northern hut on fire, and saw Mrs. Maxwell and her family (who occupied the adjacent shop and dwelling-house, which was also destroyed) coming from her house. Halpenny then addressed those who were held up, and said: "As soldiers of the Republican Army, we don't shoot unarmed men. If they were armed it would be otherwise."

"WE GET ORDERS"

He then said: "Men, I am sorry for the inconvenience I placed you in to-night; we get orders, and we have to carry them out." He told them not to move until his party got clear, and, if they did, his party would shoot. The raiders then left in the direction of Dundalk. When a Customs officer asked if he could go into the hut for records and money, the leader of the raiders answered: "I am sorry, I can't allow you. There is no border after to-night."

Cross-examined by Halpenny, the witness said that he was not active during the Black-and-Tan campaign in Ireland; he was in Africa at the time.

The witness added that at an identification parade in Dundalk he identified Halpenny and Farrell.

Constable McDaniel, R.U.C., gave corroborative evidence, and said that at the identification parade he picked out Halpenny and Farrell as being of the raiding party.

Halpenny—When you saw men approach, carrying rifles and Thompson guns, did you not know there was something up, and that they were not "Broy Harriers" or regular army men?—It was dark.

James Connolly and Stephen Mulcahy, Free State Customs Officers, who were in the hut at the time, also gave evidence.

ARREST DESCRIBED

Inspector O'Mahony, Dundalk, said that in the course of investigations later that day he, with a party of Guards, found the three accused standing beside a tent in a valley in the Cooley mountains, at Rockmarshal. There were no bedclothes in the tent or anything to suggest that they were there for a prolonged period. He informed them that he was ordering their arrest in connection with the burning of the Customs huts, and they did not reply. They were later charged by Sergeant McHale, and made no statements.

This concluded the evidence for the State, and the Justice, stating that there seemed to be no evidence against Downey, refused informations in his case. Downey left the dock, receiving handshakes from his comrades.

The Justice then returned both Farrell and Halpenny for trial on all the charges to the next Circuit Court. When asked did they apply for bail Farrell and Halpenny answered "No." They left the dock under escort, accompanied by some relatives.

James Murphy, Dunmahon, Dundalk, was charged at the same court with the unlawful possession of two rounds of Thompson gun ammunition and one spent cartridge. He had also been charged with possession of same with intent to endanger life, but this charge was dropped.

Evidence was given that the ammunition was found in a coat in Murphy's father's house during a search on July 29th. Murphy accepted responsibility, and stated that he had found it on the road some years before. He did not give evidence, and the Justice found him guilty. He sentenced him to imprisonment with hard labour for two months, and ordered him in that time to enter into bail for the period of a year or in default of entering into such recognisances further imprisonment for four months.

Donegal Milk for Dublin

Free State Produce Banned in Northern Ireland

FROM OUR CORRESPONDENT.

LONDONDERRY, Wednesday.

Free State dairy farmers excluded from selling milk in Northern Ireland by a recent decision in the House of Lords have been notified that they will not be allowed to sell milk in Northern Ireland after the 28th of this month. This means that on and after Sunday, 29th inst., Northern Ireland farmers in Londonderry area will have to supply the whole of the Londonderry population of 50,000 people, sixty per cent. of whom were supplied by Donegal farmers. The Northern Milk Act will throw upwards of £30,000 annually into the hands of Co. Derry and Co. Tyrone farmers.

Donegal dairy farmers, now unable to obtain licences to sell in Northern Ireland, as their dairies are outside the Northern Government's jurisdiction, will have to search for an alternative market.

It is believed that, while several will send their milk to a Free State creamery at considerably less than the present retail price, a scheme is under consideration by which Donegal milk will be sent direct to Dublin, where a market is assured. There is a scarcity of good milk in Dublin, and Donegal milk, which is of a superior type, would sell well there, although the capital is 150 miles away.

TWO DUBLIN BOYS MAROONED

RESCUED BY CIVIC GUARDS

Thomas Kavanagh (13) and his brother William (11½), of Irishtown road, Dublin, were rescued from a bank about a mile and a half from the shore at Sandymount yesterday. The boys had walked out by the Cockle Lake, and while on the bank they did not notice the tide coming in. Guard J. Conway, who was on duty on the Strand road, and Mr. William Keogh, swam out and took the boys ashore. At that time the water around the bank was about 16ft. deep. The rescuers were assisted by Guards Fox and Pender, of Irishtown Station, and the boys were taken to the house of Captain Hayden on Strand road, where they received treatment before being taken to Sir Patrick Dun's Hospital. After further treatment for shock they were allowed to go home.

HIGH PRICE FOR WHEAT

DEFICIENCY PAYMENT DOWN

Owing to the greatly improved price being paid in England for home-grown wheat, British wheat-growers will this year receive a deficiency payment of only 5s. 1d. per quarter of wheat they sell.

This assistance which the farmers receive under the Wheat Act is the lowest to be paid since the Act came into operation in 1932. In 1935 a fraction over 17s. was paid.

Latest market prices show that English wheat is fetching 40s. 9d. per quarter of 4½ cwt., and this, with the deficiency payment, will bring the farmers' price to about 45s. 10d.

"COUNTRY WHICH PAYS ITS DEBTS"

NEW U.S. MINISTER AND IRISH FREE STATE

"It is a great honour to be accredited to a country which pays its debts. It is a great honour, too, to be sent to a country which can balance its Budget."

This statement was made by Mr. John Cudahy, the new United States Minister to the Irish Free State, when he landed at Queenstown, states the *Morning Post*.

WARNING NOTE

Our New Traffic Codes

"SHOCK TACTICS" IN DUBLIN

Complications for Motorists

(I.)

BY A SPECIAL CORRESPONDENT.

THREE new and complicated codes of by-laws and regulations for the control of Free State road traffic have received the final approval of the Chief Commissioner of the Garda Siochana; and, subject only to formal sanction by the Minister for Local Government, will become operative within the next five or six weeks.

One of these codes will apply to all parts of the country, and the other two specially to the future regulation of traffic and parking in the metropolitan area of Dublin. More especially the combined effects of these two new sets of regulations (officially designated Dublin Traffic By-Laws, 1937, and Dublin Parking Places By-Laws, 1937) will be felt in Dublin's principal shopping and business centre—an area which lies approximately from North to South between Harcourt street and Parnell square, and from East to West between the Customs House and the Four Courts.

NEW RESTRICTIONS

Within the area so defined drivers of motor vehicles will be called upon to recognise more than a dozen one-way streets; total prohibitions of parking in more than twenty busy sections of thoroughfares; unilateral parking rights on alternate days for periods of less than twenty minutes in upwards of fifteen central streets; and drastic restrictions of waiting times (limited generally to twenty minutes) in all busy central thoroughfares.

Other restrictions will more especially affect the flow of horse-drawn traffic and heavy commercial motor vehicles through seven main thoroughfares between noon and 6.30 p.m. daily. What are officially designated as "offensive loads" will also be prohibited during the same hours daily on 35 principal streets, and restrictions are imposed upon deliveries of coal which tend to obstruct pedestrian traffic.

In order to visualise the probable collective results of such drastic departures from present conditions and habits, particular reference may be made to the main arteries which lie around, and in the vicinity of, Trinity College (which include such typical thoroughfares as Grafton street, Dawson street, Nassau street, Westland Row, Pearse street, Westmoreland street, and their many intersecting narrow approaches), and, northwards of the Liffey, to such specially crowded arteries as Talbot street, Abbey street, Henry street, Mary street, Capel street, and their intersecting by-streets.

TRAFFIC "SURGERY"

In all these, and many other, relatively narrow and busy thoroughfares, traders and their customers at present enjoy virtually unrestricted parking rights. So well-established, indeed, have such "rights" become that the police authorities seem to be unable even to prevent the "double banking" of cars, interspersed with rows of stationary cycles, alongside the kerbstone of many leading and busy streets. More especially in streets, the centres of which are occupied by frequently immobilised rows of tramcars, such conglomerations of stationary vehicles now frequently compel pedestrians to accept serious inconvenience and risk as a normal condition of street crossing.

Such are but a few of the penalties which Dublin's citizens and visitors are called upon to pay for prolonged official hesitation to deal with obviously increasing traffic problems, and such are the conditions which now call for drastic remedies. While other communities have been gradually educated in the treatment of traffic diseases, departmental procrastination and ineptitude have now condemned the citizens of Dublin to submit to a series of severe surgical operations.

Driven to devise some, or any, means by which to ward off the menace of fatal *arterio sclerosis*, the traffic surgeon's knife must now be used with comparatively small regard to the patient's comfort or convenience. Yet the patient must submit with the best possible grace; and, as the only hope of ultimate recovery, he must even co-operate as far as may lie in his power in the application of measures, however needlessly severe they may seem to be at the moment.

PERTINENT QUERIES

Even while fully convinced, however, of the need of some drastic and painful remedies, the patient is at least entitled to make a few pertinent inquiries. As a condition precedent to his submission and co-operation he is surely justified in asking whether his disease has been carefully and competently diagnosed; whether the surgeons in charge are the most competent persons to treat his disease, and what are his prospects of regaining reasonably good health when the operation is completed.

First, then, a very brief and incomplete picture of diagnosis and treatment as presented in such official documents as can be obtained on the eve of the operating day. Diagnosis is apparently covered in the terse assurance that the standing of

waiting cars is the principal cause of traffic congestion which converts comparatively wide streets into narrow traffic channels.

Therefore, many hundreds of cars must find more or less remote waiting places elsewhere. But where? On that point the surgeon's answer is so embarrassingly word-perfect and complete as to defy the best efforts of cartographer or précis writer. His answer covers something like 150 typed pages of regulations and appended schedules, which tell us *inter alia* of many streets in which drivers may not wait even for two minutes; of whole blocks of central thoroughfares in which vehicles must not remain at rest for more than twenty minutes; of groups of "one-way" and "unilateral" and "restricted" arteries, and of a whole series of things which vehicle-owners must not do in future.

PARKING PROBLEM

So much for the official litany of new prohibitions. What, then, let us ask, are the alternative things which are offered to the embarrassed—if not distracted—car-owner? Let us take the typical case of "A," whose office is in Nassau street, and look for his nearest one-hour or four-hour parking point under the new regulations. Molesworth street and Foster place are already filled to overflowing. So during the day's busy hours, is Kildare place. The College street park will be seized by owners banished from Westmoreland street and D'Olier street. He will be lucky, indeed, to snatch a space somewhere on Merrion square or Stephen's Green—the nearest remaining officially designated "parks."

Or let us consider the parking prospects of "B," whose premises are in, say, Henry street. Where may his car find a half an hour's resting-place? The short single-line parks in Stafford street or Jervis street are already more than full, so his nearest resort is somewhere in the surroundings of Parnell square. Another half-mile journey!

A hundred other typical examples might be set out; but if we multiply "A" and "B" by some figure not less than, say, 1,000 it may give us some measure of the general dislocation and embarrassment which seem to be inevitable. We are at least entitled to ask whether the official vision comprehended such consequences.

We are entitled to know whether the authors of the new code visualised the possibilities of new "parks" in such official preserves as, for instance, the grounds of Dublin Castle or the big open spaces which surround the Central Model Schools in Marlborough street.

We may quite reasonably ask whether any general survey has been made of central sites on which private enterprise or public authorities might be induced to cater for new garaging facilities.

SHOCK TACTICS

Official answers to such questions, were they vouchsafed, might be somewhat reassuring. It may be that every conceivable alternative and expedient was explored in vain. We might be told that the new codes of by-laws are intended as experiments in processes of trial and error, or we might have the assurance that rigid enforcement would only follow a gradual application of codes the collective and conglomerate consequences of which, if imposed *en masse* on a particular day, might quite conceivably severely overtax the mental resources of drivers and officials, and which will quite certainly place a needlessly severe strain on the tempers of many hundreds of law-abiding citizens.

Unfortunately, however, every available indication of official intentions points towards shock tactics. The position, it seems, is to be carried by storm, and even by "storm troops" who have yet to be instructed in the rudiments of traffic control. From outpost duties a new force of Civic Guards is to be mobilised, taught the elements of new and extremely delicate duties, and—within a very few weeks—expected to interpret a highly complicated code of conduct to thousands of bewildered citizens.

DISQUIETING FACT

Still more puzzling and disquieting is another fact which is eloquent of hasty and ill-considered official plans. Until a few days ago copies of the new codes of by-laws were only obtainable by motoring organisations in typescript form, and as a considerable compliment.

Now printed copies are in existence; but, owing to some point of parliamentary etiquette, are not obtainable from the Government's Stationery Office. It is, indeed, hinted that general publication must await the re-assembly of Dail Eireann, and, therefore, until the new codes have been imposed upon an unprepared community!

If all such facts, circumstances and conjectures are taken into account the case for a further period of delay—during which fresh official reflections and the preparation of the public mind for drastic changes of habit might proceed—would seem to be unanswerable. Meanwhile, however, this warning note may serve to prepare readers of the *Irish Times* for contingencies which may have to be encountered within the next four or five weeks.

WHERE BLAME LIES

Reserving comment upon other relevant aspects of the traffic problem for a following contribution it may be well, at this point, to say that final responsibility for the difficulties which must now be surmounted seem to be traceable rather to faulty departmental organisation than to personal failures to apprehend and grapple with the situation which now demands drastic treatment.

While it may be impossible to hold all members of official hierarchies free from certain degrees of responsibility it can at least be said that members of the Civic Guard, from superintendents to pointsmen, have displayed marked qualities of courtesy and resourcefulness in their efforts to handle a situation which is not of their own making.

BELFAST POLICE "ROUND-UP"

THIRTEEN MEN RELEASED

FROM OUR CORRESPONDENT.

BELFAST, Wednesday.

This morning the Belfast police carried out a series of raids in several districts in Belfast and detained thirteen men. They were conveyed to police headquarters, where identification parades were held during the day, and the men were subsequently released. The police authorities are reticent about the matter, but it is believed that the detentions were a sequel to disturbances during the Royal visit.

For stowing away in the liner Asturias, at Southampton on August 7, Joseph Ogilvie (20), a farm labourer, of Whitefield street, Glasgow, was sentenced to four weeks' imprisonment by Southampton magistrates.

IRISH TAUGHT IN U.S.A.

A GOVERNMENTAL PROGRAMME

"ONE OF THE FOUR PURE LANGUAGES"

IRISH now is being taught as part of the regular curriculum of the Works Progress Administration—Adult Education Programme of the Board of Education of New York.

The State Legislature of Wisconsin last week passed a bill establishing a "Chair of Gaelic language and of Irish history and literature" (sic) at Wisconsin University.

Despite their recent inception the Irish classes have proved so popular that they are being held during the summer months in two of the largest metropolitan centres: in Manhattan, at Labor Temple, 242 East 14th Street, and in Brooklyn, at the High School for Homemaking, 362 Schermerhorn street.

"The free classes in Irish mark the first time that the Irish language has been made accessible to the public at large in the United States," said S. Alexander Shear, Programme Administrator. "In the short time since the summer term began the classes have proved the most popular of all our Indo-Germanic language courses, and the unusually high attendance shows that they fill a long-felt need among the Irish part of our population."

Public response to the classes, Mr. Shear explained, was due in large part to the new interest being shown here by the Irish and Irish-American people in affairs of the old country.

IN THE UNIVERSITIES

It is being taught also, he said, under the name of Celtic at leading American universities and colleges, notably in such centres as Harvard, Columbia, Fordham, Yale, Chicago, Illinois, North-Western Wisconsin and Catholic University, but this is the first time the language is brought within reach of the average person withheld by economic circumstances from attending formal institutions of learning.

"Gaelic to-day remains a living language," said Professor Patrick F. Flood, Head of the Department of Classical Languages at Theodore Roosevelt and at Washington Irving High Schools, and active in the renaissance of the Irish tongue. "Despite the fact that through extremely oppressive measures it was forced for centuries into temporary eclipse, it has never died out. It is cœval with the Greek as the oldest tongue in Europe, and with the Greek was one of the two great instruments of culture in the early world. The Irish spoke it before Virgil sang or Cicero moulded the speech of Rome. Yet it is eminently adapted to present-day needs."

A WORLD LANGUAGE

"These classes mean," he said, "long-belated recognition in the popular mind of the Irish tongue as one of the world's great languages." He deprecated what he termed the "grossly erroneous opinions" obtaining in America about Gaelic, which "has been maligned both as a mere dialect and a barbarous patois, when in reality it remains one of the four pure tongues of mankind."

The language now is being taught, he added, as a culture-tongue or mother-language, springing from the same root as the native speech of all the branches of the entire Celtic family, including Scots, Welsh, Manx, Cornish, Breton and Basque. Several thousand ancient Celtic manuscripts "which will shed a new light on the early history of European civilisation," are now being collected and codified for translation by the Dublin Government. Another aspect, Professor Flood added, lies in the contribution of Gaelic to other languages, including English, many words of which currently used are of distinctive Irish origin. "The national heritage of the Irish people in their homeland and over the world is enshrined in the Gaelic tongue," he said.

PUBLIC CLASSES

Classes are taught along the latest lines of language instruction, and to accord with a definite psychological principle. Instruction first is by ear to impart the speech sounds or patterns, which makes it easier to get the eye patterns. Appeal is through the sensory rather than through the memory stimuli, which now, according to teachers, has been proved archaic as a method.

Besides Irish and Irish-Americans in the classes, there also are special students, including librarians, social workers, research workers, teachers, linguists and students of root-languages.

IRISH JUMPERS AT AACHEN

GOOD TRY FOR VON BLOMBERG CUP

SPECIAL TELEGRAM.

AACHEN, Wednesday.

The prize for jumping awarded by the Reich War Minister, Field-Marshal von Blomberg, at the International Horse Show to-day was won by Lieutenant Mondron (Belgium), mounted on Ibrahim. He completed the course without a fault on both occasions.

Captain Aherne, of the Irish Free State Army, riding Duhallow, was fourth in this competition. He went round in faultless style the first time, but incurred eight faults in the second elimination round.

Captain Aherne, riding Ireland's Own, also secured eighth place with three faults.

Captain Lewis on Limerick Lace and Lieutenant Stack on Owen Roe were equal ninth with four faults each. Lieutenant Heffernan had seven faults on Salmon Leap and twelve faults on Kilmallock.

An Englishwoman, Mrs. Herhardi, was third in the event for the Fastrada prize for hunters. She was mounted on Desert Guide. The winner was Major Heyden-Linden, of Germany, riding Odin.

NEW FACTORY FOR HAULBOWLINE

AGREEMENT SIGNED

FROM OUR CORRESPONDENT.

CORK, Wednesday.

At Cork Harbour Board to-day a letter was read from Mr. H. V. Flinn, T.D., Parliamentary Secretary to the Minister for Finance, intimating that an agreement for letting of part of Haulbowline to Mr. David Frame for the purpose of a heavy metal industry was, on Thursday last, signed by the Commissioners of the Board of Works and Mr. Frame.

Chairman—That is very satisfactory.

Mr. Tracy—We all hope that the factory will be opened very soon.

END OF WORLD CONFERENCE

AFFIRMATION OF UNITY

DIVISIONS CONTRARY TO WILL OF CHRIST

A CALL to all Christians to practise affirmation of unity was adopted unanimously as the final act of the World Conference on Faith and Order, which came to an end in Edinburgh yesterday. The Conference has been attended by 414 delegates from 122 Christian communions in 43 different countries. It was presided over by the Archbishop of York (Dr. Temple).

The affirmation, which was amended during the debate, stated:—"We are one in faith in Our Lord Jesus Christ, the Incarnate Word. We are in allegiance to Him as Head of the Church, and King of kings and Lord of lords.

"We are one in acknowledging that this allegiance takes precedence of any other allegiance that may make claims upon us.

"This unity does not consist in the agreement of our minds or the consent of our wills. It is founded in Jesus Christ Himself, who lived, died and rose again to bring us to the Father, who, through the Holy Spirit, dwells in His Church.

"We are all the subjects of the love and grace of God, and called by Him to witness in all the world to His glorious gospel.

THE NATURE OF UNITY

"Our unity is of heart and spirit. We are divided in the outward form of our life in Christ, because we understand differently His will for His Church. We believe, however, that a deeper understanding will lead us towards a united apprehension of the truth as it is in Jesus.

"We humbly acknowledge that our divisions are contrary to the will of Christ, and we pray God in His mercy to shorten the days of our separation, and to guide us by His spirit into fulness of unity.

"We believe that every sincere attempt to co-operate in the concerns of the Kingdom of God draws the severed communions together in increased mutual understanding and goodwill. We call upon our fellow-Christians of all communions to practice such co-operation, to consider patiently occasions of disunion, that they may be overcome; to be ready to learn from those who differ from them; to seek to remove those obstacles to the furtherance of the Gospel in the non-Christian world which arise from our divisions, and constantly to pray for the unity which we believe to be Our Lord's will for His Church.

"We desire also to declare to all men, everywhere, our assurance that Christ is the one hope of unity for the world in face of the distractions and dissensions of this present time."

The Rev. Dr. R. A. Ashworth, New York Northern Baptist Convention, chairman of the committee which drew up the affirmation, said that it represented an advance over a mere call to unity, such as was set forth by the Conference at Lausanne ten years ago.

CALL TO PENITENCE

At the suggestion of the President, the Conference associated itself with another declaration. They had met, he said, at a time of great strain and distress, for in Europe and the Far East they watched with sympathy and sorrow the menace and horrors of war. They were persuaded that war never occurred except as a result, and as an expression, of that sin from which Christ came to redeem the world. They, therefore, called all men, and themselves before all others, to penitence and to prayer that God might give to them and to all men the love of justice, the readiness to forgive, the knowledge of His will and the courage to obey; and for all who bore rule in the nations they asked an abundant bestowal of those gifts.

THE MULKEAR DRAINAGE

ANOTHER £4,000 DEMANDED

FROM OUR CORRESPONDENT.

LIMERICK, Wednesday.

A special meeting of the Limerick County Council was held to-day to consider a letter from the Board of Works in connection with the Mulkear drainage scheme, and a report from the County Surveyor (Mr. T. F. Ryan) on the letter.

Mr. J. McCormack (Chairman) presided, and the attendance included the Mayor of Limerick (Alderman D. Bourke, T.D.), Mr. G. Bennett, T.D.; Mr. Michael Colbert, T.D., and Mr. R. Ryan, T.D.

The Chairman said that the Board of Works demanded a sum of more than £4,000 from the ratepayers and the riparian owners in the Cappamore district for what was described as "the completion of the Mulkear drainage scheme." They had, he said, already subscribed £8,000 towards the scheme which was to prevent flooding at Cappamore and district, which was to cost £26,500.

The County Surveyor said that the scheme was formulated by the Commissioners of Public Works, but certain proposals which he recommended, and which were sanctioned by the County Council, were not included. He could not see how the Board of Works could now have certain works carried out as extras at an additional cost of more than £4,000. The scheme was now the Board of Works' responsibility, and the County Council would be foolish to spend another penny on it. They had been willing at first to pay a generous contribution to a scheme that would have been a success.

Solicitors present on behalf of a number of landowners stated that their clients had been willing to pay their share towards the scheme, but flooding was now worse than ever.

The deputies present promised to stand behind the Council in any action they might take, and, on the suggestion of the County Surveyor, agreed to visit Cappamore on Tuesday next.

ARCHBISHOP'S CRITICISM

GERMAN INDIGNATION

FROM REUTER'S CORRESPONDENT.

BERLIN, Wednesday.

Indignation has been aroused here by remarks made about Germany by the Archbishop of San Antonio, in Texas. Under the heading, "Unbelievable Attack by an Archbishop against Germany," to-night's *Angriff* says that the Archbishop has followed in the footsteps of Cardinal Mundelein, and asks: What does the Vatican say about the new calumnies?

FROM REUTER'S CORRESPONDENT.

BETTER PRICES FOR FARM PRODUCE

The Director of Statistics, Department of Industry and Commerce, announces that the agricultural price index number for June, 1937, was 107.9 (base, 1911-1913=100), compared with 106.5 for May, 1937, and 92.5 for June, 1936.

FAR EASTERN SITUATION

(Continued from Page 7, Column 3.)

dropping machine led to a Japanese denial that the 'plane was theirs. People who had watched it from the rooftops, however, insist that it must have been Japanese; for, although it circled low over the Japanese warships in harbour, it did not attract fire. Neither side would care to own the 'plane because the British defence area was involved.

The lull which followed the aerial visitation was broken by a half-hour's exchange of furious gunfire, in which the Japanese warships and land guns fought a duel with the Chinese artillery at Pootung.

The first Japanese warships to fire were two torpedo boats. The flagship Izumo and other warships, stretching all the way to Woosung, joined in.

A shell landed in the cotton mills on the Pootung waterfront belonging to the British-owned China Printing and Finishing Company. A serious outbreak of fire began in the mills.

It is not known whether the fire was caused by a Chinese shell falling short or a Japanese shell.

IN NANKOW

General attention here is concentrated on Nankow, north-west of Peiping, where the Japanese are apparently not pressing, but are awaiting the development of a new plan of attack. They are avoiding aerial or artillery blasting, because they require the use of the railway later should the campaign succeed, says a Reuter Peiping telegram.

Foreign military observers consider the future necessarily difficult for infantry.

Yesterday reinforcements were observed moving towards the mountains from Peiping.

Opinions differ regarding the casualties, the Japanese claiming about twenty deaths and sixty wounded, while the Chinese assert that the Japanese losses are heavier.

Japanese headquarters have appointed Colonel Junzo Hiraoka as head of the Press section to meet twelve correspondents twice a day, thus assuring the fullest opportunities for news in the Peiping area.

Eleven Japanese warships have arrived at Tsingtao.

Japanese nationals are evacuating Chefoo.

Communications by mail are becoming easier, and the Japanese have promised the correspondents wireless facilities *via* Manchuria this week.

NEGOTIATIONS

Negotiations are going on between representatives of Britain with other countries and the Governments of China and Japan, which may yet lead to the easing of the situation in Shanghai, and a more tranquil prospect in that city.

Telegrams are passing between the countries mainly concerned with a view to bringing about a change for the better in the outlook. Recent suggestions of a wholesale evacuation of British subjects from the city are deprecated in official circles, as such a policy is regarded as quite unlikely.

Obviously, with so many shipping and other difficulties, commerce is slowed down, and some firms may reduce their staffs for the time being, but the total evacuation of the British business population is not contemplated. This applies also to other countries

SEEKING A BASIS

The Governments of the United States, France and Italy, all of whom have considerable interests in Shanghai, in cooperation with Britain, are understood to be active in their efforts to secure a basis for fruitful negotiation with the Governments at Nanking and Tokyo.

Any project to exclude Shanghai from the war zone would throw considerable responsibility on the European Powers interested and on America, as extensive guarantees would undoubtedly be demanded, and reinforcements of troops might be necessary.

Japan would certainly want assurances that her nationals would not suffer in Shanghai if her protecting forces were withdrawn.

The Press Association was informed by the London office of the Nippon Yusen Kaisha that owing to the situation in Shanghai steamers belonging to the line on the European and Orient-Californian runs will omit Shanghai until further notice. The Nippon Yusen Kaisha is the largest steamship line in Japan.

GERMAN FEARS

Fears that the Sino-Japanese conflict may develop still further are expressed in an article in to-night's *Angriff*.

The newspaper says that the latest developments have brought with them "a state of tension which has affected the two nations to a considerable extent, and must almost of necessity end in fresh activities in view of the fact that the clash between Japanese troops and the Central Army of Nanking presents a great undesired burden for Japan."

BELFAST WOMAN'S RESCUE EFFORT

FAILED TO SAVE COMRADE

FROM OUR CORRESPONDENT.

BELFAST, Wednesday.

At an inquest on Miss Elizabeth Garrett, of Premier Drive, Shore road, Belfast, who was drowned at the Waterworks Bathing Station, Belfast, a few hours before she was to leave for a holiday, her companion, Miss Ellen Watson, said that they had gone to the boundary and were swimming back, when she saw that Miss Garrett was scared.

She added: "I swam back and caught her round the waist with my left arm to help her along, but she put both her hands on my head and pushed me down. I felt my feet touch the bottom, and as I came up I caught her by the legs and pushed her up to the surface. When I came up myself I shouted for help, and swam for the springboard."

Miss Watson then said that she saw the attendant jump into a boat and row out in search of her friend. When she got to the springboard and looked back Miss Garrett was sinking again, and she never came back to the surface alive. When the boatman arrived she pointed out to him the place where she thought she had disappeared, and he began diving, but could not find her friend. Another diver located the body later.

Recording a verdict of "Accidentally drowned," the Coroner (Mr. T. C. Alexander) said the fact that the girl was about to leave for her well-deserved holiday made the tragedy particularly sad. Certainly everything that could be done was done to save her life, particularly by her friend, Miss Watson; and she, Mr. Turner, Mr. M'Auley, and an unknown bather who also entered the water deserved the highest commendation.

Tom Blower, who swam the Channel from France on August 4, and who has been waiting at Deal to attempt to cross from England, returned to his home at Nottingham yesterday, the swim having been postponed until the next neap tides at the end of this month.

Animal Forfeited.—At Letterbreen Petty Sessions yesterday John Quinn, Tievebunnan, Garrison, Co. Fermanagh, was fined £15 for harbouring a heifer, and an order was made for forfeiture.

* * *

Accidental Death.—A verdict of accidental death from drowning was returned at an inquest held in Tubbercurry yesterday morning on Mr. Michael Finan, of Sessuegelroy, Clonnacorn, who was found drowned in a river near his home.

* * *

The Tourist Industry.—The address on the Irish tourist industry by Mr. J. P. O'Brien, general manager of the Irish Tourist Association, was delivered at a meeting of that body in the Royal George Hotel, Limerick, not in the Chamber of Commerce.

* * *

Cork Building Strike.—The conference engaged in discussing matters at issue in the Cork building trade strike is making a very determined effort to reach agreement. Several further sittings are likely before all points are cleared up. The strike has now been over four months in progress.

* * *

Police Jump to Safety.—Two policemen cycling on the public road had to throw themselves into a ditch to avoid being killed by an approaching lorry, it was stated at Letterbreen Petty Sessions yesterday, when John James Dundas, Derrygonnelly, was fined 40s. for reckless driving.

* * *

Sudden Death.—When driving his cows home to be milked yesterday morning, Daniel Meany (65), farmer, Cullawn, Inistioge, Co. Kilkenny, collapsed in the laneway leading to the farmyard and died immediately. A *post-mortem* examination revealed that death was due to fatty degeneration of the heart.

* * *

Houses Condemned.—Mr. MacLysaght, Commissioner administering the affairs of Longford Urban Council, had before him a joint report from the Medical Officer of Health and the Town Surveyor, condemning eighty-four houses as being unfit for human habitation.

* * *

Navan Robbery.—A burglar who broke into the residence of Mr. J. Flood, Bridge street, Navan, took a gold watch valued £20 and a silver one valued for £5, but missed £187 which had been hidden on the premises. Three youths have been taken in custody. The watches have been recovered.

* * *

Girl Injured.—Maisie Sheehan, aged ten, is detained at Waterford Infirmary suffering from injuries sustained when she was involved in a motor accident at Gallwey's Hill, Tramore. After she had been struck by the car the little girl was pinned beneath the chassis, and police and civilians had to lift the vehicle to extricate her.

* * *

Death of a Child.—A verdict of death from natural causes, accelerated by scalds, no blame being attached to anyone, was returned at the inquest held yesterday by Dr. D. A. MacErlean and a jury on Mary Ann Hughes, a three years old child, of 10b Commons street, who had died in the Children's Hospital, Temple street, Dublin, on the previous day.

* * *

Unkept Cemeteries.—When the Most Rev. Dr. Doorly, Bishop of Elphin, consecrated St. Patrick's new cemetery for Strandhill (Co. Sligo) Parish, he said that Ireland was the only Catholic country in the world where cemeteries were kept in a careless and disgraceful manner. He made a strong appeal to the people of the district to keep their new cemetery in a proper and fitting manner.

* * *

Water Wastage.—Mallow (County Cork) Urban Council unanimously decided to prosecute all persons found allowing water going to waste. The reports of the water inspector and an expert specially employed for a month to detect leakages showed that, despite a recent extension to the supply, the town reservoir was at a low level, and a good deal of water was allowed to be wasted.

* * *

Meath Footballer Dead.—The death occurred at the Meath County Infirmary, Navan, yesterday of Thomas Coogan, of Martry, aged about 23 years, a prominent footballer and a member of the Meath County senior team, as a result of an injury received on Sunday last, when his team (Martry) was playing Kilbeggan (Westmeath) at Rathmore Pattern, near Athboy.

* * *

Petty Theft.—"The Railway company are pestered with people trespassing on their property, stealing and causing damage," said Captain J. E. T. Miller, who appeared for the Great Northern Railway Company at Londonderry Petty Sessions yesterday, when Alexander McGranaghan, Bishop street, was fined £1 on a charge of larceny of a quantity of coal, value 1s. 6d., the property of the railway company.

* * *

Dublin Board of Assistance.—At the weekly meeting of the Dublin Board of Assistance yesterday the relief supervisors reported that for the week ended August 14th there were 7,286 cases relieved at a cost of £3,409 10s. 6d., this being an increase of 34 cases for £8 3s. 6d. over the previous week, and an increase of 541 cases for £484 13s. over the figures for the corresponding week last year.

* * *

Belfast Agent's Death.—A verdict of death from carbolic acid poisoning, self-administered while in a state of unsound mind, was returned by the Belfast Coroner (Mr. T. E. Alexander) at the inquest on Henry O. Fielding, a 45-year-old ex-officer, and agent for a cash register company in King street, Belfast. Evidence was given that Fielding was found in his office, at 18 King street, poisoned, and with a loaded revolver in an attaché case near by. A brother of the deceased man said that the tragedy was an after-effect of the war. His brother, he declared, had been a very bad case of shell-shock.

* * *

Awaiting Report.—Four months ago a sworn inquiry was held in Bray by the Department of Local Government into the application of the Bray Urban Council for loans for the erection of houses under the Small Dwellings Acquisition Acts, to carry out various improvements in the town and to pay awards made by the arbitrator for the demolition of houses and the compulsory acquisition of sites. It was stated at the Committee of the Council that the carrying out of several of the improvements were held up pending the receipt from the Department of the Inspector's report.

* * *

Litter Nuisance.—Complaints were made at the Committee of the Bray Urban Council about the scavenging of Bray, and of the litter of papers left by picnic parties on the Bray Esplanade. Comment was also made about the undesirable practice of breaking bottles on the beach, and the danger to which bathers were subject in sustaining injury to their feet from the broken glass. It was decided to engage two boys to clean up the papers from the Esplanade, and the complaints as to the inadequacy of the scavenging were referred to the supervising officials.

Old Employés Entertained.—The Lady Beatrice Pole-Carew and the Lady Constance Butler, of Shanbally Castle, Clogheen, Co. Tipperary, daughters of the late Marquess and Marchioness of Ormonde, entertained to tea at the Imperial Hotel, Kilkenny, the surviving members of the staff which were employed at Kilkenny Castle during their residence there. There are only six members of the staff of that time now surviving—namely, Messrs. John Whyte, Martin Coyne, John Young, William Hanley, Patrick Kelly, and James Buggy. There were present at the tea, and as a compliment to the memory of the late Mr. Henry Willows, coachman to the late Marquess, and who died recently, his son, Mr. Arthur Willows, was invited. Lady Pole-Carew was accompanied by her grandchildren. At the conclusion Mr. John Whyte expressed to Lady Beatrice Pole-Carew and Lady Constance Butler the sincere thanks of his colleagues and himself for the kindly thought which prompted them to arrange such a pleasant reunion, and wished their ladyships many years of health and happiness. Kilkenny Castle, the ancestral home of the Butlers of Ormonde, is at present unoccupied.

SLIGO'S GREAT SHOW

ENTRIES AGAIN INCREASE

QUALITY OF STOCK OUTSTANDING

DESPITE unfavourable weather, the County Sligo Agricultural Society had one of its most successful shows yesterday. It was patronised by a very large gathering, among which were visitors from many parts of the country.

The steady advance in development and popularity shown by the fixture during the last four or five years was maintained this year, with entries exceeding those of 1936 by over 200, while a number of new sections and additional accommodation had to be provided in order to cope with the rapidly growing number of exhibitors in the Home Industries and the Dog Show sections, in which there were exhibitors from as far South as Cork.

The jumping competitions attracted most interest, as might be expected in a county where horse-jumping is almost second nature; but keen interest also was displayed in the judging of the cattle and horses, the judging rings being crowded during the morning. In both sections the judges found reason to be extremely pleased with the quality of the stock on show, and this was particularly the case in regard to the cattle, which showed a striking all-round improvement.

Resolutions Adopted.—Mallow Urban Council have adopted resolutions sent by Tipperary Urban Council. The first resolution sought to have the time for repayment of housing loans extended from 35 to 70 years so that lower rents could be fixed and thus almost eliminate the necessity of evicting poor tenants for non-payment of rent. The second resolution drew attention to the greatly increased cost of building, owing to dearer materials and added labour expenses, due to the operations of the Widows' and Orphans' Pensions Act and the Conditions of Employment Act, and it was considered that the maximum figure on which subsidies are paid from Central Funds should be increased.

Grants to Bray.—At the Committee of the Bray Urban Council a communication was received from the Department of Local Government stating that grants, amounting to £2,024, provided the Council contributed £320, would be made for the provision of works to relieve unemployment in the township. Schemes for the purpose should be submitted to the Department. The works were to be carried out by direct labour, which was to be contributed from the local labour exchange. It was decided to avail of the offer, and a committee of inspection was appointed to draw up with the surveyor a list of suitable works in different parts of the township.

SALAD—
natures healthy summer food

In summer when appetites are hard to satisfy and one tires of hot meats and other winter dishes, there is nothing more pleasing than a dish of salad. Its crisp coolness and health giving properties are certain to be appreciated.

Paten's Salad Cream brings out these flavours to their full and the introduction of lemon juice in its manufacture gives it that extra goodness that makes all the difference to your salad.

BISHOP'S SUDDEN DEATH

FAMILY ABSENT ON HOLIDAY

The Right Rev. Cecil Wifred Wilson, Suffragan Bishop of Middleton, Manchester, died suddenly during Tuesday night at his home at Didsbury, aged sixty-two. He was found dead on the floor of a room. He had been staying with his family at St. Davids, but at the end of last week he returned alone to Didsbury.

The Press Association understands that when the Bishop was found there was a partly-prepared meal and gas was escaping in one of the rooms. The possibility that he had a sudden heart attack while preparing a meal is being considered by the police.

During the war Dr. Wilson was a chaplain at Gallipoli and was at the landing at Suvla Bay. Although invalided home, he remained with the Army until 1918. He worked in London as a young clergyman. He was married, and had three sons and two daughters. The wedding of his elder daughter took place last month.

A preliminary examination, it is understood, points to the cause of death as heart trouble.

A detailed *post-mortem* examination is being performed, and the result will be made known later in the week to the Manchester City Coroner, who, it is expected, will open the inquest to-morrow.

MAN KILLED DURING DEMOLITION

TRAPPED WHEN FLOOR GAVE WAY

One man was killed and three injured yesterday during demolition work at the iron foundry of Joseph Henry, Ltd., in Manor road, Holbeck, Leeds.

The man killed was William Marsden Fawcett, of Porto street, Holbeck, Leeds.

A floor on which some men were working gave way, and others working underneath were trapped or buried by *débris*.

Leeds Fire Brigade were sent for, but the men had been extricated by their comrades when the brigade arrived.

Three workmen and a foreman were on the second floor of a three-storey building. The roof had been taken off, and part of the walls brought down, when the weight of the dislodged bricks caused the floor to give way. The four men fell through to the next floor, where they managed to remain. The bricks and *débris*, however, fell through to the ground floor, and buried a joiner and Fawcett, who was working there with him.

Michael Murray, of New Lane, Meadow lane, Leeds, and Bert Coates, of Willow road, Leeds, the foreman, were taken to Leeds Infirmary. The two others who fell from the second floor—Richard Barnett and Tom Parker, both of New Lane—suffered only minor injuries.

DUBLIN STRIKE ENDED

A conference between representatives of the Irish Seamen and Port Workers' Union and representatives of a firm engaged in the dismantling and renovating of machinery for the Electricity Supply Board terminated a two-days stoppage at the Pigeon House, Dublin. The settlement provides for an increase in wages to 1s. 3d. per hour, with one hour's pay for travelling time.

SPEEDBOAT SUNK

TWELVE PERSONS SAVED

Twelve people, including several children, were saved when the speedboat Miss Britain hit a submerged object and sank off Ramsgate yesterday. The rudder and the transom were carried away, but the vessel's watertight bulkhead kept her afloat until the motor boat Sunshine, under Mr. Arthur Verrion, which raced to the rescue, had taken off the passengers and the owner, Mr. W. J. Cook. Shortly afterwards the vessel went down, about 150 yards from the shore.

Hundreds of holiday-makers on the sands heard the crash, and watched the passengers being served out with lifebelts while they awaited rescue.

GOSSIP FROM THE COURSE

FASCINATOR'S FAILURE

Roulade Wins on Merit : Pegomas Enhances His Reputation

STOCKTON, Wednesday Night.

BOOKMAKERS had cause to regret their visit to Stockton to-day. Four winning favourites and two successful second favourites gave them little quarter, and few of them would leave the course with a favourable balance. The North took most of the honours, for horses trained in Yorkshire won four races. Two of them provided W. Nevett with a double.

Fascinator's failure in the Wynyard Plate was the biggest surprise of the meeting. She had every chance and was squarely beaten by Roulade. She had won in such impressive style at Nottingham and was so highly spoken of in training reports that even the most cautious were lulled into false confidence. They seemed to think any available price was generous, and so they laid odds of 2 to 1.

Out of the gate like a flash, despite being drawn on the outside, Fascinator was clear as she entered the straight. She was still in front at half-way.

Meanwhile Roulade had been making steady progress and challenged the favourite below the distance.

Favourite Beaten

To the consternation of backers Fascinator's jockey showed signs of uneasiness, and as the challenge developed it became apparent that the favourite was not able to ward off the danger. So Roulade pulled away in the last half furlong to record a smart victory.

None but the first two ever looked likely to win in the straight, but a good word must be put in for Grand Style filly, who was third.

Pegomas did not win the Stockton Handicap although he enhanced his reputation. He was beaten half a length by Ferniehurst in a field of three, after putting up a grand fight.

Pegomas tried to make all the running, which was not expected under such a big weight as 9st. 7lb. He set such a good gallop that Coronetto, for whom T. Weston put up 2lb. overweight, was toiling hopeless in the rear half a mile from home.

A Great Duel

E. Smith had Ferniehurst tucked behind Pegomas, but it was not long before he switched him round to challenge. The pair went at it with the utmost resolution and for fully a furlong the issue hung in the balance. Then Ferniehurst's pull in the weights told.

The betting had suggested that it would be a close race, for only fractions separated the first two in the market.

Armagh did his duty well in the Zetland Plate. An odds-on favourite in a last race always carries a heavy responsibility, and that was Armagh's position. He drew clear a furlong from home and was an easy winner.

Every credit must go to Gullible for winning the Bishopsgarth Handicap. He was several lengths in the rear as he entered the straight, where he looked so hopelessly placed that one layer offered 10 to 1 against him.

Gullible, however, weaving his way through the field, was fast enough to get to grips with Scotch Duke close home and raced past the post a deserving winner from Ruby Tiger, who made up a lot of ground to beat Scotch Duke for second place.

Backers Start Well

Pepita had started the day in the best possible way for backers when she won the Harewood Selling Plate. She was favourite, and got the better of Calf Love to win cleverly.

Kidside was advertised on the card as being for sale after the Mandale Selling Handicap. He came near to winning that race, only the long and strong run of Calliope preventing him from doing so.

Beginner was favourite and ran a moderate race. There was no bid for either of the selling plate winners.

MORE CHINS ARE SMOOTHER FOR this TODAY!
PALMOLIVE shaving cream

Judging by the number of chins smoothed daily, the world's champion chin-smoother today is still Palmolive Shaving Cream — holding the title firmly against all comers! Here are five reasons why Palmolive retains its phenomenal popularity.

1 Multiplies itself in lather 250 times.
2 Softens the beard in one minute.
3 Maintains its creamy fullness for ten minutes on the face.
4 Strong bubbles hold the hairs erect for shaving.
5 Fine after-effects due to olive and palm oil content.

CARISSA FANCIED

Sheldrake May Win Summer Handicap at Bath

CARISSA, the fastest three-year-old filly in the North of England, will run her last race but one before she retires to the stud when she contests the Middlesbrough Handicap at Stockton's concluding stage to-day. I think that she will prove equal to winning. She finished a creditable seventh in the Stewards' Cup at Goodwood.

That was over six furlongs. There is little doubt that she appreciates a journey slightly shorter, as she showed when she won over five furlongs at Newmarket's second July meeting. Naturally, she has been given her fair share of weight, but she is so game that I believe she will defy the handicapper.

Carissa may not have matters all her own way, however, as I understand that Fourth Floor is considered to be nearly at her best again, and that best is very good, indeed. It is significant, too, that she represents R. J. Colling's stable instead of the dual winner, La Mamounia.

Paul Beg returned to his best form when he short-headed Stella Warden at Bogside last month. If reproducing that running the 1935 Gimcrack winner should be hard to beat. Resenda, too, is in fine fettle, as she has shown by winning her last two races.

Lawcot can be fancied on some form. He failed in the Molyneux Cup at Liverpool, it is true, but earlier he was seen to marked advantage when he beat Mickey the Greek and others at Sandown Park. Games and Near White are almost certain to attract attention, as both are consistent. Still, I imagine that

CARISSA

will be followed home by Fourth Floor.

Scotch Woodcock has been running so prominently in selling plating company that even the Wilton Handicap may not be beyond his capabilities. He is on a very low mark, too, and should show appreciation of the fact by gaining winning brackets. Fineweed and Lanson may be the biggest dangers to

SCOTCH WOODCOCK.

Matt Peacock holds a strong hand in the Lambton Stakes with Ulster Lily colt, Lazy Kate colt, and Blackoe. The pick of these may be

BLACKOE,

who made a promising debut, although unplaced, in Faroe's race at Liverpool last month. I expect the youngster to win now at the main expense of Oliver.

Gentle Lily, another of Peacock's charges, is sure to be backed to win her fourth race off the reel in the North Yorkshire Apprentice Plate. The opposition will be fairly strong, however, and Gentle Lily may have her winning sequence ended by

CORREA,

who will be well ridden by W. Griggs. Bell-Ans is most fancied of the remainder.

The Summer Handicap tops the bill at Bath. This may be won by

SHELDRAKE,

who has not run for some time, but is thought to be at his best. Newport is an obvious danger.

Other likely winners at this meeting are MARSHWOOD, in the Monument Plate, and CORDON, in the Grenville Plate. Both will be ridden by Gordon Richards.

FLAMALL WINS AGAIN

Another Double for Maddenstown Lodge at Tramore

DESPITE an unpromising morning, with a heavy sea mist and some showers, there was a splendid attendance for the third day's racing at Tramore yesterday. Luckily, the rain cleared off long before racing began, and the afternoon turned out as pleasant as could be wished. Another good day's sport was provided and, as on the two previous days, Mr. J. J. Parkinson again saddled two winners making his total for the meeting, so far, six.

A riding success by D. Morgan is always very popular here, and long before he had steered Charon home in front for the Strand Plate shouts of "Come on, Danny," could be heard all over the course. Mrs. Atkinson's horse and Argument were leading the field to the last hurdle, and when Argument came down here Charon was never afterwards troubled.

It was disappointing to find that the Welter Plate was reduced to a match, Obedient and Killeenlea being the only two of the six declared to run. There was an improvement when seven went to the mile and a quarter post for the Annestown Plate. Currock, the mount of H. Beasley, was favourite, but he was never well placed and could do no better than finish fourth. The race, in fact, from start to finish was a match between Flamall and Wild Umpire, and Mr. Parkinson's horse, who had won a hurdle race on the previous day, now had an almost similarly easy win. Desmond's Double broke a leg in the course of the race.

Ahanesk, who had run well in the Galway Plate and was second to Golden Star at Leopardstown, polished off the lot opposing him in the Fleming Memorial Steeplechase in ready fashion. Boy of the Barrow, as usual, made the running, and when he had to cry quits Ahanesk strode into the lead and won with the greatest ease.

The odds laid on Grand Glen to win the Guillamene Plate were never in doubt, Mr. Parkinson's gelding having the measure of his opponents all the way, and another popular success was registered when the colours of Mr. T. J. Widger were carried first past the post by Rathfadden in the Kilkenny Plate. Details :—

NEWMARKET NOTES

Digby's Busy Morning : Hints for Stockton To-day

NEWMARKET, Wednesday.

DIGBY, the Harraton House trainer, was out with his team shortly before 7 a.m. to-day and got through a busy morning's work, the outstanding gallop being that in which Sweet Content (W. Sibbritt) went well over a mile and three-quarters with Morar (trainer up), Shour (F. Lane), St. Botolph (V. Mitchell) and Watertight (K. Edwards). Polette, Spinney colt (F. Lane), Horatio (Sibbritt) and Kybo (trainer) covered seven furlongs at half-speed. Vesington River and On With the Dance colt traversed six furlongs at a similar rate, and Giorgetta accompanied Slope filly (W. Sibbritt) and Elation in a good pace gallop over five furlongs.

C. Leader stripped his St. Leger candidate, Fair Copy, Highlander, Hedgley Moor and Madeira Knight and gave them a good pace gallop over one mile and a half, with Recovery acting as pacemaker for the first ten furlongs. The most improved animal in this team is St. Magnus, who made Tamorelli look very moderate in a good pace gallop over ten furlongs.

H. Jelliss, who wisely advised Mr. J. A. Phillips to retire his good two-year-old, Real Estate, for the rest of the season after he had won the International Plate at Kempton, has still some youngsters who should win races before the end of the season. One of these is Trigonon, who shaped well enough this morning in a good pace gallop over six furlongs with America, Bay Dragon and the older Tremearland (trainer) to suggest that he will certainly contribute towards his keep.

On the Bury side, the St. Leger candidates, Solfo, Goya II., Full Sail, Sultan Mahomed and Perifox were restricted to cantering exercise with members of their respective teams.

Our runners in the North Yorkshire Apprentice Plate at Stockton to-morrow, Keen Air and

CORREA (next best),

have been in opposition previously this season. They were second and third respectively to Sweet Alyssum in a similar event at the Second July Meeting here, and Wellesley's charge, on the same terms as those on which they meet to-morrow, finished two lengths in front of Correa. Correa was rather badly away then, and she has since divided First Flight and Kind Kitty in the Leicestershire Oaks. I expect Lord Derby's filly and her promising young rider, W. Griggs, to score on this occasion.

RAHERE

is in good trim for the Billingham Selling Handicap and if doing his best should win.

Fourth Floor may show improvement on her previous form in the Middlesbrough Welter, but our best should prove to be

LAWCOT (nap),

who has not run a bad race this season, and has a good chance of recording his second victory. There may be little to choose between R. J. Colling's old warrior,

LANSON,

and Scotch Woodcock in the Wilton Handicap, but Lanson is such a game horse that, despite his years, I think he is entitled to the preference. His stable companion,

OLIVER,

who has made nice headway since he finished second to the heavily-backed Pharos at Ripon, can be fancied for the Lambton Stakes.

WATER POLO

SANDYCOVE MISS MANY CHANCES

SENIOR CUP VICTORY FOR PEMBROKE

PEMBROKE .... 5 **SANDYCOVE** 1

Keen interest was taken in the first round of the Leinster Senior Cup at Blackrock Baths last night, and there was a large gallery, although the weather was cold. Sandycove recalled J. Allen and G. C. Higginbotham for the game, and were the more favoured until half-time, but afterwards they failed to last the pace.

Sandycove had sufficient chances to have had a substantial lead at half-time, but O'Brien's shooting was much below his usual standard, several of his shots striking the water, and most of the others were straight at Shannon. The Pembroke goalkeeper was very sound, and Wallace played grandly at back.

Against the run of play, Ellerker scored with an excellently judged shot high in the right-hand angle of the goal. Exchanges were even for a short spell in the second half, until Fletcher took advantage of a wild pass out from goal to put Pembroke two up. From this to the end Pembroke were clearly the better.

O'Duffy missed a chance for Sandycove, and from the clearance of Shannon, Wallace sent up to Morton, who added the third. Sandycove rallied, and O'Brien, by strong swimming, worked out an opening for Allen to reduce the lead. Fletcher, however, added Pembroke's fourth, the Sandycove defence being at fault. Fagan, who was the outstanding Sandycove player, barely missed with a swift shot, and near the end Ellerker coolly back-flipped the fifth past Fitzhugh.

Pembroke—J. P. Shannon; J. D. Wallace, F. Murphy; C. Carroll; J. H. Morton, M. D. Fletcher (capt.), and H. G. Ellerker.

Sandycove—W. Fitzhugh; C. Fagan (capt.) and W. J. McCormack; G. C. Higginbotham; J. Allen, L. O'Brien and P. O'Duffy.

Referee, Mr. P. J. Lavery.

Intermediate Cup.—Sandycove II. 5, Dublin II. 0. O'Sullivan (2), Cummins, Hughes and Kelly scored.

BOXING

"FARR HAS NO CHANCE," SAYS SCHMELING

GERMAN SEEKS TITLE BOUT WITH LOUIS

NEW YORK, Wednesday.

"I don't think Tommy Farr has the slightest chance of beating Joe Louis," said Max Schmeling, German ex-holder of the world title, who astounded the boxing world last year by knocking out Louis and causing the biggest "upset" in boxing for years. Schmeling, who has just arrived here in the Bremen, said the purpose of his visit was to sign a contract for a title bout with Louis, "either late in September or early in October."

It is by no means certain, however, that Schmeling will be able to come to terms with promoter Mike Jacobs, who wants an option on his services for five years before he will make the match. Schmeling said he was willing to sign for one fight only, and that he would demand an equal share of the gate with Louis.

FARR'S REPLY

"Schmeling can talk all he likes, but if he found a way to defeat Louis I should do the same," was Tommy Farr's reply to Schmeling's statement. "If Schmeling wants that title he will have to get it from me," he added.

BIG FIGHTS AT GLASGOW POSTPONED

Owing to bad weather the boxing tournament in Glasgow last night was postponed until to-morrow. The principal contests were between Benny Lynch (Glasgow), British, European and world fly-weight champion, and Roy Underwood (Australian champion), and Jake Kilrain (Glasgow), British welter-weight champion, and Jimmy Purcell (Australia). It was to have been the first appearance of the two Australians in Great Britain.

At the weigh-in both British champions were over the stipulated poundage. Kilrain succeeded in getting off a surplus ten ounces, but Underwood agreed to go on with his fight with Lynch half a pound over the agreed 8st. 4lb.

POLO

TO-DAY'S FIXTURE

There will be a match at the Nine Acres, Phœnix Park, to-day, at 5.30, between the following teams:—

Buccaneers—Mr. D. Harvey, Mr. P. McCann, Mr. J. Johnson, Major T. W. Kirkwood.

Goslings — Mr. L. Martin, Mr. A. L. Moore, Mr. J. A. Leonard, Mr. H. Tyrrell.

ATHLETICS

NESBITT ENTERS FOR THE A.A.A. DECATHLON

Six entries have been received for the Amateur Athletic Association's decathlon championship, which is being held at Loughborough, Leicestershire, to-morrow and Saturday. They are N. A. Burges (Cambridge University), J. J. Cotter (Birchfield Harriers), N. A. Hewson (Metropolitan Police), J. J. Miggins (Polytechnic Harriers), J. Nesbitt (R.U.C.) and T. T. Simmonds (Metropolitan Police). Last year's winner, E. R. Walker (Scottish A.A.A.), is not competing. Cotter was second in 1936 and Burges third.

WRESTLING

DISORDERLY SCENES AT KILLARNEY

Scenes of wild disorder were witnessed in the wrestling ring at Killarney racecourse yesterday, when the heavy-weight contest between Jim Casey (Sneem) and Sam Rabin (Manchester), the Jewish champion, ended abruptly in the fourth round. Casey had his man in a stranglehold, which is not allowed, and when referee Mr. John Muldoon, of London, tried to break the hold Casey turned on him and crashed him to the mat.

Spectators invaded the ring, and half a dozen scuffles were in progress when the police restored order. The referee was carried to the dressing-room, where he was attended to. The contest was awarded to Rabin.

In a dull and uninteresting affair, Tom Casey (Sneem) knocked out Jack Pettifer, the English heavy-weight in the third round of a scheduled twelve rounds boxing contest.

Other wrestling results were—Paddy Casey (Sneem), beat Mike O'Sullivan (Cork). Mike Howley (Mayo), defeated Black Devil.

GOLF

MAHON LEADS CHAMPION

High Scoring at Portmarnock by Irish Professionals

By Our Golf Correspondent.

THE holder, Joe McCartney, of Holywood, and Paddy Mahon, of Royal Dublin, should have another rare set-to for the Irish professional title at Portmarnock to-day. Last year the Ulsterman, at Galway, beat the Royal Dublin golfer by one stroke. Hugh McNeill, at Dollymount in 1932, was the winner by a single stroke, and at Castlerock and Belvoir Park Mahon also finished in second place.

To run up for the same championship four times in five years is a rather unique achievement, but it looks to me as if Mahon's time has come at last and that he is about to crown his most successful year by adding this title, that has so persistently eluded him, to the distinctions gained in the cross-Channel tournaments.

PERFECT PITCHING AND PUTTING

The reason for the assumption is this: although not fully recovered from his recent illness, Mahon yesterday, except for one hole, played the best golf on the first and second rounds to end up with a two strokes lead of McCartney, who was his partner on each round, the respective scores being 71 and 74 and 71 and 76. He is playing with magnificent confidence, and his pitching and putting is so much better than McCartney's—the putting particularly—that it will be, indeed, surprising if he should fall behind the champion on these last two rounds.

Next to the leaders is J. McKenna, of Bundoran, four strokes behind Mahon, and three strokes worse than McKenna is Joe Carroll, of Galway, who was first native champion at Portrush in the Irish Open.

For the championships at Royal Liverpool and Carnoustie the courses were stretched to over seven thousand yards; for this test the Portmarnock championship course is playing every yard of the chain-measured 7,049 yards. Yardage has been added to each of the holes out, and to the 10th, 12th, 17th and 18th—it has been stretched by 91 yards, with new tees at the 4th, 8th and 17th.

The extra length, plus the wind, played the very deuce with the competitors. We had sixty-four rounds of 80 and only a score in the 70's. I cannot recall anything like it in an Irish professional championship. It was a crushing blow to professional golf in this country, and the poor golf was all the more astonishing because of the fact that the course is in wonderful condition.

CRASHES AT THE 17TH

The salient feature—the only one, in fact—of the day was Mahon's failure to equal the record for the course, when he had the distinction, so to speak, in his pocket. It was in 1934 that Mr. J. C. Brown and Sid Easterbrook in the Irish Open holed the shorter, sun-baked course in 68 on the last day. Now Mahon seemed a certainty to, at least, tie with it, but that one hole which, as a rule, is lurking for the player doing a good score at Portmarnock ruined his prospects. In his case it was the seventeenth, where he dropped three strokes.

He made a dazzling start; nothing like it has been done in a championship at Portmarnock. He had McCartney as his partner, and the champion opened with three excellent fours; but Mahon holed a long putt at the first, chipped in from just off the second, and laid the grandest second shot I ever saw played, a wonderful pitch with a shade of pull, a few inches from the third hole—three 3's!

Merrily the little fellow went on reeling off remarkable figures. He was putting beautifully, and for eight holes he was only 28. But at the ninth he took three putts for a 5—33 out. Three putts at the fourteenth did not matter much; then came a 3 and 4, to be succeeded by that staggering 7.

To the seventeenth he played a great drive, but he pulled his second into the bunker up at the green, just got out, and his fourth stroke hit the thorn bush. On in 5 and down in 7, he had a fine 4 to finish 71, almost holing his pitch in.

The holder was shaky on the greens out, and was four behind his rival at the ninth; but he played the holes in grandly for 34, and they went to lunch on level terms.

The wind finished in the afternoon, and we saw none of the forenoon fireworks from the two leaders. The golf was just steady, Mahon being round in 74 (37 out), and McCartney requiring two more (38 out), but they each had a 6.

Fairweather, like Mahon, came an appalling crash at the seventeenth in the morning. Out in 36 was really good, but, when two 4's would have given him a 69, he, too, got the bunker at the seventeenth green with a low wooden shot on the left—another 7. A 5 at the home hole gave him a 73.

With a clear course, Mahon and McCartney were round in the morning in 2 hours and 15 minutes.

Smith (Bramshott) (14), 74.

FALLON LEADING AT MANCHESTER

Johnny Fallon, Huddersfield assistant and Scottish international, won the Leeds Cup at Mere, near Manchester, yesterday, and is leading in the 72 holes tournament for the Northern professional championship. He had a second round of 74 for an aggregate of 142, and leads by one stroke from J. H. Busson (Formby) and Bert Gadd (West Cheshire), the Irish Open champion. Fallon is also at the head of fourteen men who qualified for the final stages of the *News of the World* £1,250 tournament, to be played at Stoke Poges next month. The remaining two places allotted to the Northern section will be filled to-day, when four players, including Percy Alliss, holder of the Northern title, will count the scores returned in the third round of the championship.

NEW CENTRE FORWARD FOR WATERFORD

Following their disappointment in failing to secure the services of R. Walls for the centre-forward position, Waterford F.C. announced yesterday that they have secured for the berth John Hernon, formerly of Larkhall, a Scottish club. Hernon is 21 and stands six feet high.

For next Sunday's opening game with Drumcondra Arrigan is being moved from half-back to full-back, and the Waterford side will be:—Anderson; Arrigan, Thompson; Walsh, Marley, Ryan; Hartery, Merry, Hernon, McGoorty, O'Keeffe.

YACHTING

THE WATER WAGS SAIL A CREW'S RACE

The fresh and puffy westerly wind which blew last evening was a stiff handicap upon the helmsmen in the first of the two Wag races confined to crews (regular helmsmen being barred from the tiller). At 6.45 p.m. there was a start of eight boats, and the strong puff which swept the harbour while the first round was being sailed reduced the field to four Wags, Mary Kate, Alfa, Saryalis and Gavotte retiring full of water, or nearly so. Three of the four left in had experienced men at the tiller, and the fourth, Blue Bird, was sailed pluckily by Mr. Tony Meldon, his father acting as crew. Entering the final round Phyllis held a good lead from Anne II., the pair being far ahead of Maureen and Blue Bird, and the finish was timed:—

	H.	M.	S.
Phyllis (winner)—Mr. A. E. Snow	7	34	30
Anne II. (2nd prize)—Mr. G. Bayly-Spencer	7	35	12
Maureen—Mr. I. McFerran	7	41	36
Blue Bird—Mr. A. Meldon	7	44	12

OXFORD UNIVERSITY RETAIN CUP

Three of the six final races in the University and Public Schools races were sailed off in the Gareloch, Clyde, yesterday. Oxford University, holders for the past two years of the challenge cup in the university contest, led the field with a total of 15½ points. The runners-up are Edinburgh, with 14¼ points.

Other aggregates were:—Queen's University (Belfast), 9; Glasgow University, 9; Cambridge University, 8; Royal Marines, 7.

BOWLING

GLASGOW TOURISTS BEAT LEINSTER

GLASGOW .... 118 **LEINSTER** 86

A strong cross-wind made matters uncomfortable last night at Rathmines, where the Glasgow Ex-President's Association met Leinster in the third game of their Free State tour. Only five rinks were played, and the visitors gave their best display of the tour so far, winning easily by 32 shots. Robb, Brodie and Smith were the successful skips on the Glasgow team, and W. H. Morton and A. E. Bridle were the home skips to return winning cards.

Glasgow Ex-President's Association—C. L. Robinson, 18; G. P. Linton, 16; R. J. Robb, 29; J. B. Brodie, 31; C. Smith, 24.

Leinster—W. H. Morton, 19; A. E. Bridle, 17; F. W. Johnston, 23; F. E. Smith, 9; E. Lutman, 18.

To-day's match is against Clontarf at 6 o'clock. The afternoon game at Blackrock will not be played.

BLUEBIRD'S TRIAL RUN

SEVENTY MILES PER HOUR

From Reuter's Correspondent.

LOCARNO, Wednesday.

Sir Malcolm Campbell had two outings to-day in his new speed-boat Bluebird, which he has brought to Lake Maggiore for the purpose of finding what speed she is capable.

In the morning, when he was out for about seven minutes, he had trial spins of about 60 miles per hour, and in the afternoon he took the boat over a stretch of five and a half miles, when he reached 70 miles per hour.

Sir Malcolm afterwards expressed himself as satisfied with Bluebird's performance. He hopes to make a further test run to-morrow, and is eager to give the boat its final test on Saturday or Sunday next.

GEORGE WILLIAMSON DEAD

George Williamson, a former well-known steeplechase jockey, died at West Bridgford, Nottingham, yesterday, aged 69. He was one of the leading jockeys forty years ago, and won the Grand National in 1899 on Manifesto. He headed the list of winning National Hunt jockeys for several seasons. For four years he was the leading cross-country jockey in Austria, and during his riding career he won most of the big steeplechases on the Continent. During recent years he had been a prominent member of the Quorn and South Notts Hunts.

CRICKET

YORKSHIRE RECOVER

Edrich and Hart in Big Stand for Middlesex

BATSMEN generally held the mastery yesterday. At Lord's a double century stand between Edrich and Hart gave Middlesex a fine start against Somerset, who finished the day 359 runs behind for the loss of Gimblett. Glamorgan put up a brave fight at Scarborough, but Yorkshire, after losing Hutton and Sutcliffe for 18, effected a grand recovery, thanks mainly to Mitchell and Barber, who put on 141 together.

Graham Parker, hitting 210 for Gloucestershire at Dover, played the highest innings of his career after seeing Barnett making a dazzling 70 in thirty-five minutes. Kent are 396 behind with all their wickets standing. Warwickshire did well to score 253 against Surrey at Birmingham, for they lost two men for 16. Dollery and Cranmer both batted splendidly.

James Langridge and Tate came to the rescue of Sussex at Derby by putting on 63 for the ninth wicket, but Copson was almost irresistible on his return to cricket after injury, and he took eight wickets for 64. Another excellent bowling performance was achieved by Perks at Worcester, where he dismissed six Hampshire men for 47.

A brilliant innings by Lieutenant R. P. Borgnis, the Navy all-rounder, saved the Combined Services from complete collapse against the New Zealanders at Portsmouth. Each side completed an innings, the tourists gaining a lead of nine runs. Driving and cutting brilliantly Borgnis dominated the innings, being last out after scoring 101 out of 162 in 140 minutes. He hit a 6 and eleven 4's.

AN ESSEX RECORD

With his fifteenth run against Nottinghamshire at Southend yesterday, Nichols, of Essex, completed the "cricketers' doubles" of 1,000 runs and 100 wickets. This is the third year in succession that Nichols has been the first player to accomplish the feat.

Nichols has now beaten the record of the late J. W. H. T. Douglas, who performed the "double" five times for Essex. Nichols previously achieved the feat in 1929, 1932, 1933, 1935 and 1936. Nichols narrowly won the race for the "double," as E. Davies, of Glamorgan wanted only four more wickets when the game with Yorkshire started at Scarborough yesterday.

THE PHŒNIX TOUR

Weston-super-Mare won the toss in their match against Phœnix yesterday, but decided to field, and Phœnix started badly, losing four wickets for 26 runs. Byrne and Boucher added 30 runs for the fifth wicket when Byrne was bowled by Hunt, the old Somerset County player for a well played 19. Boucher batted soundly for 23 before being caught at long-on off a lofty drive. The Weston team included four players who have represented Somerset—Bridges, Hunt, Hawkins and Priddy. Phœnix were all out for 159, the last wicket increasing the score by 61 runs. Score:—

PEMBROKE V. CLONTARF

The postponed Senior League game between Pembroke and Clontarf started last evening at Sydney Parade in blustery weather. Clontarf, winning the toss, batted first and scored slowly. Hill batted very soundly for over two hours for 41 before being unluckily run out. When play ceased owing to bad light, after two-and-a-half hours, Clontarf were 129 for 8. ULSTER SENIOR CUP

The Ulster Senior Cup final, between Woodvale and North Down (the holders), looks like being a long-drawn-out affair. When the match was due to commence on Friday, August 6th, rain prevented play, and on the following day North Down scored 331 and Woodvale replied with 17 for none. The game was resumed yesterday at Cliftonville, and after Woodvale had lost two wickets for the addition of seven runs they added 59 without further loss before rain, which had caused two stoppages, caused play to be abandoned for the day. R. McCutcheon (48 not out) batted splendidly. Play will be resumed this evening.

GARDEN, FARM, BEES, ETC.

ANNUALS FOR AUTUMN SOWING.

Writing on this subject in the *Weekly Irish Times*, the Garden Correspondent says:—

We have seen a practically continuous display of bright flowers from early summer until late autumn by the exclusive planting of autumn and spring-sown annuals, including memophila, limanthes, clarkia, collinsia, godetia, antirrhinums and hosts of similarly easily managed plants. These may be sown early in September in rather poor ground, in a fairly well-sheltered position. Here they will make sturdy, hardy plants, only requiring thinning as they advance in size, and lifting carefully when being transplanted into their flowering quarters. We certainly think this delightful class of garden flowers should receive a greater amount of attention than they do at present.

AUTUMN is coming on. Have you provided for the vegetable garden for autumn and winter? Special list of plants and seeds recommended free on application.—Drummond's. T

EGG PRODUCTION.

Writing on this subject in the *Weekly Irish Times*, the Poultry Correspondent says:—

Talking of egg-production reminds one that on occasions, especially among the less experienced, there may be a danger of overdoing this business of high fecundity, or breeding for high egg records, even at the expense of health and vigour. Inevitably, it has happened that where egg records only have been the object, and where for a numbe of years breeding for this purpose has gone on, the result is the constitution of the strain or even breed has been weakened. In extreme cases, where the practice is long continued, even the size of the birds has decreased, and they have become more prone to disease. Breeders must always be careful, therefore, not to sacrifice too much in the cause of egg records alone, but must always take into account the other factors that make egg-production a successful industry. One primary factor is healthy, vigorous stock of high standard according to breed.
